## **ABSTRACT**

This paper study about the Factors That Cause Bankruptcy and How It Affect Economic Growth. The study aims to investigate the relationship between Bankruptcy and Economic Growth. The sample of data been collected from the Malaysia Department Insolvency (MdI), Bank Negara annual reports and from the past research. The year of data from 2000-2019. The variables that involves are Bankruptcy, Liquidation , Individual loan data and Corporate loan data. The method that been used is OLS or Multiple Regression Analysis. The expected findings are to see if the Bankruptcy and Economic Growth has a one way relationship and gives positive significant results. The study will contribute the government ways to resolve the bankruptcy problems in the country.

## ACKNOWLEDGEMENT

Alhamdulillah, first and foremost thanks and gratitude to Allah SWT who has given His blessing and merciful to complete this report of INV 667. Even though a few problems arise during the journey of this project, I can handle it well and wisely.

A big appreciation and thanks were given to Madam Zahirah Hamid Ghul as the advisor of this project, without her guide, I am unable to finish the project on time. She always supports and guide me to do the project paper well.

Thanks to my family that has been supported me financially and friends that never bored giving their hand and knowledge. Not to forget, to Dr Roslina Mohd Shafi who always keep on reminding us to give our best for this project. Lastly, thank you for everyone that involve in the process directly or indirectly. I believe that this project paper will help future researcher. Thank you. Assalamualaikum.
