SUPERVISING LECTURER: Sr. MOHD DZULKARNAEN SUDIRMAN  
DECLARATION:

I hereby admit that this report is the result of my own efforts, except for the certain parts that are attached from sources that specified in reference chapter.

## ACKNOWLEDGEMENT

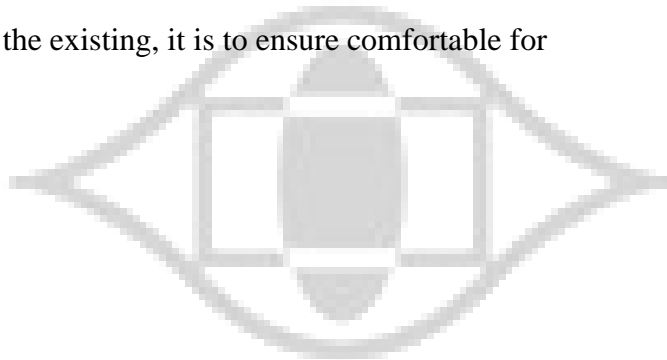

In the name of ALLAH the Almighty, the most Beneficent and the most Merciful, I would like to express my deepest sense of gratitude to Encik Mohd Dzulkarnaen Sudirman, with he helps and guidance I have managed to complete this report and if not for her the report not be finished properly.

A special thanks to all staff Lembaga Pembangunan Seni Visual Negara that give permission for me to do a case study and give some information and data. In addition, thanks to the person that supervise me during the training and give me a chance to involve in all work with the various experience and knowledge which is Encik Amirul Ashraf Ismail

Last but not least, I would like to express my sincere and heartiest thanks to the parties which direct and indirectly, my dearest family, other staff of the company and fellow friends for their encouragement, support and motivation in the course of completing this report. No doubt, all of them who is my source of inspiration.

## ABSTRACT

Renovation also called remodelling is the process of improving a broken, damaged, or outdated structure. Renovation work is a work which is an overhaul of the building structure or component that makes from existing to be the best condition and safe for consumers. There are various factors that cause the need for the work of renovation works, which is space planning, furnishing lighting and technology are outdated. The condition building needs in the current situation to ensure the building in the best condition. For example, in terms of furnishing and materials. Every year it will be creating a better material than the existing, it is to ensure comfortable for

## TABLE OF CONTENT
