Thesis : Factor Of Potential Young Age Bankruptcy : A Case
Study In Malacca

Signature of Student : 

Date : March 2019

ABSTRACT

Bankruptcy cases have become a major problem in Malaysia. Like people nowadays especially young age are facing a problem that ask for financial and this matter has lead them to enter financial agreement and later on involve with bankruptcy due to default payment. The problem is an individual face a problem of have a high debt as young age looks to be indebted to get an asset like own a homes, vehicles and to improve their standard of living. There should be a good financial literacy, having a positive attitude towards money, an individual itself regarding a self-esteem and also about the good management of financial stress. In addition, having the good financial planning for itself. Thus, the adoption of a strategic approach is needed to planning and managing that urban landscape to carry out its function and roles. This research aim is to study the Factor of Potential Young Age Bankruptcy : A Case Study in Malacca. It specifically studies on the young age person who stay in Malacca. This research is based on data obtained from survey questionnaire that distributed to all young age person who stay at Malacca as to achieve good result of this research. The results of the study also suggested of strategic approach is needed for the society or the potential young age person to successfully managing their financial. It is hope that the study can contribute to the improvement of less in bankruptcy person in Malacca.

ACKNOWLEDGEMENT

Assalamualaikum w.b.t. Firstly, we want to say thanks to God in help us in our journey to finish this report. In addition, we also want to say a big thanks to my Advisor Dr Roslina Binti Mohamad Shafi for her guidance in giving me a recommendation for me doing this research and give us more knowledge to assist me in writing this thesis.

Next, a warm thanks also dedicated to Madam Nur Azizah Binti Sadar Mohamad as my supervisor at my internship place. She is so friendly and easy to communicate, then it makes me to have good communication as well as had be a great opportunity in create a good relationship between us.

Then, we would to thanks to madam Aflah Binti Md Isa @ Darami as my second examiner in doing my research. After that, we want to say thanks to everyone that help us either directly or indirectly by giving moral support and always lending a hand to me regarding this research project.

Lastly, much thanks to my parents and family as love to give me full support in doing this research. As they always lend a hand to me as for me to fulfil my final year project requirement.
