**PROPOSED UPGRADING OF COMMUNITY LIBRARY
PETALING JAYA AT LOT 389 JALAN SELANGOR,SEKSYEN 3,
46050 PETALING JAYA, SELANGOR DARUL EHSAN.**

accepted in partially fulfillment of the requirements for a Diploma in Interior Design

Report Supervisor : Fairuzzana Ahmad Padzi

Course Coordinator : Abdul Hamid Mohamed

ABSTRACT

The final project of interior architecture for diploma is the manifestation to students understanding on process aspects on interior architecture that has been studied from the basic to presentation level of design proposal. All the design must be connected to the project that has been decided. Before making the design, major aspect must be considered to get the information. The research, case study, design schematic and the planning have to be done to make sure that client will give the good reaction to our design. That is why the organized work must be done perfectly starting from the design development until the end of the project. So, to realize the design into space is a difficult way because it has the procedures that must be followed. The planning has been produced and the ideas that wanted to be applied into the space must be linked to the concept and images. By that, the good design is produced with the concept, the images, into the design axis and followed by the development of ideas.

Proposed Upgrading works Petaling Jaya Community Library is one of compensation for customers to establish their scope in Malaysia because this place had existed in Petaling Jaya, Selangor and get ignored by residence. Petaling Jaya Community Library wants to make a great platform for Malaysia to open the eyes of the public to attract and grow the business library as providing a clean, comfortable and modern. They also wanted a place for them to carry out their activities. The concept of trying to apply to the design of the library is "life without books unthinkable" because the book is the most effective source of knowledge because the book we will be able to sit in the place we are today and someone who successful would opened and read books to gain knowledge and books also place for us to reference.

In conclusion, the new design for Petaling Jaya Community Library should have the characteristic and client's needs. The design hopefully, will give benefits to all, either all the staffs member or non-member.

ACKNOWLEDGEMENT

Bismillahirrahmanirrahim

Assalamualaikum w.b.t

I am very grateful to Allah because of the strength and grace had been given to me which helped me in completing thesis report for my final project for INA316 FINAL PROJECT INTERIOR ARCHITECTURE that is Proposed PROPOSED UPGRADING OF COMMUNITY LIBRARY PETALING JAYA AT LOT 389 JALAN SELANGOR,SEKSYEN 3,46050 PETALING JAYA, SELANGOR DARUL EHSAN.

Firstly, I would like to thank and express my appreciation to all party who has been helping, supporting and guiding me all the way from beginning till end. This included Mr Zainal Abidin second librarian from Community Library Petaling Jaya for willing to spend his time to contribute in my research.

A handful of appreciation are given to Mr. Abdul Hamid Mohamed who had involved in the process of learning and provided me with helpful information and guidance. I wish to extend my greatest thanks to Miss. Fairuzzana Ahmad Padzi as my supervisor who has given full guidance and supervision through the period in order to complete this report. In addition, thanks to my entire studio 06 lecturers and fellow colleagues because without them my final project will be meaningless. Last but not least, to my beloved family especially my parents because of their understanding and supporting until the end.

Thank you so much

CHAPTER 1.0 INTRODUCTION

1.1 INTRODUCTION

The project is an upgrading of Petaling Jaya Community Library for Majlis Perbandaran Petaling Jaya. This purpose is to make good and improves the library facilities also to rebrandings the old library to modern library. It also want to gift awareness about the functions and activities of community library. Therefore, it is also want to produce a good design with an inspirations of creating a built environment that leads to functions and living comfort to all interior scheme and to client also users. This project is to create and provide accommodation space for the people of Petaling Jaya and also to create the new lifestyle of design to the most potential. The target market for the library are strictly open for all the Malaysian respectively Petaling Jaya and Lembah Klang residence and the tourist that came to Petaling Jaya and also for the disable people who want to have the exciting experience inside the library area.
