ABSTRACT

This project is about upgrading new interior design scheme of Terminal Jetty Lumut for Majlis Perbandaran Manjong. Client of this project is Majlis Perbandaran Daerah Manjung known as MPM at Manjong, Perak. The idea comes when looked at traffic flow in existing terminal jetty. The reason to propose this project is because many problems occur with and without our mind. Example waiting area small and not enough for tourist, no disable person special way before in and out the ferry. It difficult for disable person to get in and get out from the ferry. Therefore, the project is proposed to design a interest and fulfill the aspect of design. The research will involved research methodology such as interview, observation, internet and side references conducted on the products and designing the terminal jetty will be gathered with others related information and details which work as guideline to prepare this project. For this propose project site at Lumut, Perak was choose after had done survey in few places and it seems that the site choose gives good impact and the surroundings suit the business purpose. The objective is to create a very well terminal jetty with concept and style that related to this product and give the desire images.

ACKNOWLEDGEMENT

Assalamualaikum w.b.t. praise to Allah s.w.t. because of His blessing and willing, I succeed to complete my Final Project Report on Upgrading new interior design scheme of terminal jetty for Majlis Perbandaran Manjung at Lumut, Perak as one of the requirements to learn Diploma in Interior Architecture, UiTM Perak.

I would like to thank and appreciation to all the parties who have been helping, supporting and guiding me all the way to finish up my thesis successfully. I wish to extend my greatest and upmost gratitude to Mrs Nurrajwani Bt Abd Halim as my Supervisor Lecturer in guiding me to finish my thesis. Also my big thanks to Mr. Abd Hamed B. Mohamed who taught, guide and monitor my report writing progress from time to time. I also would like to present a big thanks to my client, Majlis Perbandaran Manjung for giving full commitment and cooperation on all the information given about them so that I could finish my report writing.

Lastly, my very special thank to my beloved family especially my mother, father and friends, thank you because of their understanding and supports throughout these three years. All the helps and experiences are very valuable and memorable for me.

Thank you.

CHAPTER 1.0 INTRODUCTION

1.1 INTRODUCTION

This project report for coursework INA 396, Research Thesis as one of condition for student in end of semester to got a Diploma in Interior Architecture, Universiti Teknologi Mara (UiTM). Preparation for this report is depends on process to finish it final project for part 6. This project report is about idea for upgrading Terminal Jetty at Lumut, Perak for Faculty of Architecture, Planning and Surveying .This project is upgrading project that cover some of space inside the interior of terminal includes ticket counter, waiting area, arriving area, information counter and others. This upgrading project is one of the ways to promote tourism sector of Malaysia where this jetty are the only one way that connect with Pangkor Island.

This terminal jetty building is under Majlis Perbandaran Manjong (MPM). This building has been renovated on 2004. The location is very strategic because Lumut has been announcing as Navy town in 2009.
