OCTOBER 2008

## **ABSTRACT**

The final project of interior design for diploma is the manifestation to student's understanding on process aspects of interior design that has been studied from the basic to presentation level of design proposal. A day care centre is defined as a care or education centre provided during the day (Cambridge Advanced Learner's, 2003). Then, the baby care centre is a form of education for young children (between 0-3 years old) which serves as a transition from home to the commencement of more formal schooling. Children are taught to develop basic skills through creative play and social skills. The concept for MAC Baby Care Centre is **Curve 'Priorities'**. The meaning of 'priorities' is the priorities of human's sense like touch, hear, see, feel and mind. Well the word 'curve' means the continuous line unshaped where this element will apply into the design. Concept is a guideline in designing a good interior design. This baby care centre design shall be based on the concept to meet the needed requirement and produce a design that may give impact to the customers. Images are very important as a guide in spatial design. The image for this project is Retro Modern, as it may help this centre in creating its own character. In addition, they may expand their business using thus image rather than the existing image which is not welcoming and a bit of out dated. In conclusion, the new baby care centre design for MAC Confinement Baby Care Centre that will be run should have the characteristics and the customers' needs besides a suitable concept. The design is hopefully, to give benefits to the investors as a competitive franchise baby care centre.

## **ACKNOWLEDMENT**

Assalamualaikum w.b.t, praise to the Allah Al - Mighty for His blessings for giving me the chance to complete the Final Project Report for Proposed New Interior Design for Confinement Baby Care Centre at No 1-1 & 1-2, Jalan Wangsa Delima 13, D`Wangsa, Bandar Wangsa Maju, 53 300 Kuala Lumpur as among the requirements to earn a Diploma of Interior Architecture Department, University Technology of MARA, Seri Iskandar Campus, Perak.

First of all, I would like to thank to Prof. Madya Dr.Mohd Sabrizaa bin Abdul Rashid as the Programme Head who has given a lot of support, assistance and guidance to me throughout the duration to finish this project report. Secondly, Pn Mawar binti Masri, my support lecturer and thesis coordinator (THE 386) who has given a wonderful guidance throughout the semester.

Not forgetting a big thanks to En Mohd Hanif Abdul Wahab as my supervisor who has given a good guidance and supervision through the period to finish this final project report. Also thanks to Prof. Madya Rusni bin Abdul Ghani @ Abdul Rani as a coordinator program, Pn Mawar Masri and En Haris Hambali, for their help and guidance for all the while I was writing and completing this report.

Finally and most important, I would also like to thanks to all day care center staff for helping me and guiding me while I as in the process of researching for this project. Last but not least, I would also like thank to all those who help me in any way and to anyone who I did not mentioned in helping me finish this report for the final project.

*Noor Azayani binti Alim*
