SERI ISKANDAR CAMPUS

APRIL 2012

ABSTRACT

A final year student pursuing a diploma course in Interior Design is requisite to organize a final year project. All the design must be connected to the project that has been decided. Before making the design, major aspect must be considered to get the information. The research, case study, design schematic and the planning have to be done to make sure that client will give the good reaction to our design. Because of that, the organized work must be done perfectly starting from the design development until the end of the project. Ugrading of Pusat kebudayaan dan Kesenian Negeri Sembilan is one of the compensation to the client to establish their scope of centre in Malaysia since this place already exists in Malaysia and getting well known by Malaysian. JKKN also want to make a great platform for them to open people's eyes to not misjudged about their activities. They also want to have a proper place for them to enjoy their activities with a better space not like before

According to the objectives and the issues, a space planning must be suitable with the design concept and images. So, to realize the design into space is a difficult way because it has the procedures that must be followed. The planning has been produced and the ideas that wanted to be applied into the space must be linked to the concept and images. By that, the good design is produced with the concept, the images, into the design axis and followed by the development of ideas.

ACKNOWLEDGEMENT

Bismillahirrahmanirrahim

Assalamualaikum w.b.t

Praise be upon Allah for the grace and strength that had been given to me in completing this report writing within the time line. This project will absolutely not accomplish without the presence of generous and big hearted people in my life.

To my beloved parents and to the course lecturer, Pn Azizah bt Md.Ajis, for the guidance and supervision all through this whole project. Next is my thesis supervisor, Encik Afzanizam bin Muhammad, I would like to thank you for your positive dedication and patient toward administering my final project.

Not to forget my beloved parents who are always there for me through ups and downs and to all my adorable friends that involving and struggling together with me in completing my study.

Thank you.
