Acknowledgement

"In the name of Allah, the Most Gracious and the Most Merciful"

Alhamdulillah, all praises to Allah for the blessing and strengths that have been given to me in finalizing this thesis.

First of all, I would like to express my deep appreciation to Prof. Madya Khairil Johari Johar, my thesis advisor. Thank you for your motivational feedbacks, tolerance and concerns throughout my time in completing this project. Without your guidance, I won't be able to reach this far. Thank you again for being an inspiring lecturer all this while.

My deepest appreciation also goes to my beloved family especially my parents, Mohd Rislan bin Mohd Rahmad and Azizah binti Mohd Badar, brothers and sisters. Thank you for all your supports and loves to me during my journey in Shah Alam. I cannot find other words that could sincerely express my love and appreciation for their devotion, support and faith in my ability to achieve my dreams.

Abstract

This study is to know about the preferences of music between classical music and modern music. The study of this research conducted among music students in the faculty of music UiTM who has both experience in classical and modern music. The study also used to find out the background of the students that contributes to the preferences of music. Next, this study will also investigate the factors influencing of their music preference. Last but not least, this study also used to identify whether job opportunities will influence the students' preferences in music. To achieve better, this research is conducted in qualitative methods by using the interviewing few UiTM music student who has experience in classical and modern music
