ACKNOWLEDGMENT

Bismillahirrahmanirrahim,

Alhamdulillah. Thanks to Allah SWT, whom with His willing giving us the opportunity to complete this Final Year Project which is title Medicare Kit. This final year project report was prepared for Faculty of Electrical Engineering and basically for student in final year to complete the undergraduate program.

Firstly, we would like to express our deepest thanks to, Mrs Nor Wahidah Misran, a lecturer and also assign, as our supervisor who had guided be a lot of task during two semesters session 2014/20115. We also want to thanks the lecturers and staffs of Faculty of Electrical Engineering UiTM Terengganu for their cooperation during we complete the final year project that had given valuable information, suggestions and guidance in the compilation and preparation this final year project report.

Deepest thanks and appreciation to our parents, family, and others for their cooperation, encouragement, constructive suggestion and full of support for the report completion, from the beginning till the end. Last but not least, thanks to all of my friends and everyone, that have been contributed by supporting our work and help ourselves during the final year project progress till it is fully completed.

ABSTRACT

This report represents a project named Medicare Kit based on our theme, which is equipment for handicap or elderly. As we know world become more develop and life getting more simple. Almost of our routine done by machines and it is getting advance time by time. With an advance technology we can create a system that can help a elderly person. People are so busy with their career. Thus they lack of leisure time with their love ones. Sometimes, people are not concerned about their health and others in their family. The function of Medicare Kit is to prevent from forget to take medicine on time by using our kit.
