ABSTRACT

A final year student pursuing a diploma course in Interior Design is required to prepare a final year project. The design of the project should be related closely to current issues or similar to it. The knowledge and skill acquired during the duration of the course should be put to practise onto the drawing board. This also includes the research, case study, interviewing of clients, designing proposals, preparing artwork, preparing presentation drawings, design development and last but not least the final presentation.

The proposed product for this project is cafeteria. The site placed at Basement, Tabung Haji Headquarters Building, 201, Jalan Tun Razak, 504000 Kuala Lumpur. The proposed site, TAHA Cafeteria was designed for Tabung Haji but the operator of the cafeteria is TH Global Services Sdn. Bhd. one of Tabung Haji shareholders. Tabung Haji is Malaysian Hajj pilgrims fund board. Tabung Haji facilities saving for the pilgrimage to Makkah through investment in Shariah-compliant vehicles. Three mains of the client activities are funds, invests and hajj.

Tabung Haji Headquarters Building itself is one of the city's famous buildings. The building is a single building with 151.83 meters architectural height and 38 floors above the ground. The construction type of the building is skyscraper and the building structural material is concrete. The architects who design the building site are Hijjaz Kasturi Association and the architectural style is modernism. The building main usage is commercial office and the site usage is parking.

Three case study of the cafeteria that had been observed are Subway at The Curve, The Tarik Place at Damansara Mutiara and The Craven Café at Wangsa Maju, Kuala Lumpur. The space requirement in TAHA Cafeteria includes many spaces that needed extra research on space planning as it deals with traffic flow for customers and staffs and other proposed area inside such as dining area, food display area, bar counter area, hand wash basin area, cashier counter area, kitchen, VIP area, LCD broadcast area and washroom. In this design proposal for designing the interior of TAHA Cafeteria, there are some important things to be included so that the final product would reach the goal and fulfill the client's needs. Those important things are the criteria, the objectives and also the design goal. As a conclusion, all of the method that is being studied is the continuation from the writer's knowledge about this project. The proposed design is based on the problem-solving method on those design principles.

ACKNOWLEDGEMENT

Bismillahirrahmanirahim.
Assalamualaikum w.b.t.

Alhamdulillah, finally I've complete this thesis report. It would have been impossible to produce this report without help from my supervisor, lecturer, friends, and enthusiasts whose name appear below.

Firstly, I would like to thanks to Puan Azizah Binti Mad Ajis as a lecturer for subject design report. Without her knowledge and information, this report will not have been possible. I gratefully acknowledge the support of En. Nordin Misnat as a supervisor, who is handle an innovation approach and corporate attitude for my learning information. And also thank for give guideline and clearly brief to make this project report.

My special thanks to my client, the Tabung Haji for giving full commitment and cooperation on all of the information given about them so that I could finish my report writing. A big thanks to my family for giving the money support and wonderful support to make me strong in my way to success especially their moral support to makes me survive for finish this report. Finally, I wish to thank to my entire lecturer since semester 1 until now for their initiative to complete my mission.

Thank you so much,
Wassalam.

CHAPTER 1.0

INTRODUCTION

1.1 INTRODUCTION

This is a requirement for each and every interior design student to get the Diploma Interior Design of Universiti Teknologi Mara. Students have to give report about their final project. This thesis will record each and every data and information about the final project such as research, case study, client information, project proposal, site proposal, concept, style image, design development and final presentation. This report is about, to propose upgrading of TAHA Cafeteria at Basement, Tabung Haji Headquarter Building, 201, Jalan Tun Razak, 50400 Kuala Lumpur.

Tabung Haji or Lembaga Tabung Haji is Malaysian hajj pilgrims fund board. It was formerly known as Lembaga Urusan Dan Tabung Haji (LUTH). Tabung Haji facilities saving for the pilgrimage to Makkah through investment in Shariah-compliant vehicles.
