Course Coordinator : En. Abdul Hamid Mohamed

ABSTRACT

This project is about proposing a New Design Scheme of Education Centre For Pertubuhan Jemaah Islah Malaysia (JIM) at Lot G-123A, Jalan Prima Sg 5, Prima Seri Gombak, 68100 Batu caves, Selangor. Pertubuhan Jemaah Islah Malaysia (JIM) has been taking care of the Muallaf's welfare since 2008 through the establishment of Hidayah Centre. One of the services provided are giving islamic education to the 'Muallaf'. JIM realises that Islamic education are important to the new converts and they are planning to open its new branch of Hidayah Centre which will focus more on educational centre. Through this project, I will create a new design space for 'Muallaf' or the new converts of Islam to gain their Islamic knowledge in comfortable condition by studying client's requirements and user needs.

ACKNOWLEDGEMENT

Bismillahirrahmanirrahim

Assalamualaikum w.b.t

I am very grateful to Allah because of the strength and grace had been given to me which helped me in completing this project , understand certain issue and user's need more deeply. Through this project, I'm able to learn more on design development, site study, construction method and also documentation of a real project. As I am dealing with real project , there are some obstacles that i have to pass through. I would not able to complete and understand this project without the help from others.

Firstly, I would like to thanks to Mr. Abdul Hamid Mohamed as the course coordinator who always provide me with helpful information on the researcher's project and report. Second, the researcher's appreciation goes to Mr. Azizan Nor as the supervisor who always advise and guided me throughout this writing process. Futhermore, I would like to thanks to the researcher's families and other parties involve in this project such as experts, developer and others for allowing me to get the information needed for this project. Last but not least, to all the researcher's friends who have given their support and help in the researcher's research and completing this project. Thank you.

CHAPTER 1.0 INTRODUCTION

1.1 INTRODUCTION

Project Research and Report (INA 396) is a subject for student to learn about the thesis writing, base on their Final Project of Interior Design (INA316) in Diploma level. I am proposing a New Design Scheme of Education Centre For Pertubuhan Jemaah Islah Malaysia (JIM) at Lot G-123A, Jalan Prima Sg 5, Prima Seri Gombak, 68100 Batu caves, Selangor.

This project is about providing a new design space for 'Muallaf' or the new converts of Islam to gain their Islamic knowledge in comfortable condition. Pertubuhan Jemaah Islah Malaysia (JIM) has been taking care of the Muallaf's welfare since 2008 through the establishment of Hidayah Centre. One of the services provided are giving islamic education to the 'Muallaf'. JIM realises that Islamic education are important to the new converts and they are planning to open its new branch of Hidayah Centre which will focus more on educational centre.

Education Centre is a facility that provides academic or other educational services. Services may include full courses, demonstrations from professional community members, activities and tutoring. Learning centre also may provide other facilities and services helping individuals to overcome his or her learning problem. For this project, the type of education provided will be Islamic education. Therefore, I will implement Islamic element in the design development.
