

ONLINE SCHOOL REPORT CARD

NOOR AZIMAH BINTI HASSAN

PROJECT PAPER SUBMITTED IN PARTIAL FULFILLMENT FOR THE
DEGREE OF SCIENCE (HONS) INFORMATION TECHNOLOGY

FACULTY OF INFORMATION TECHNOLOGY AND QUANTITATIVE SCIENCE

MARA UNIVERSITY OF TECHNOLOGY

SHAH ALAM

MAY 2003

ACKNOWLEDGMENT

Great thanks to Allah S.W.T because of His blessing and mercifulness that allowed me to prepare this project report as required.

I would like to forward my grateful thanks to Puan Noor Elaiza Bt Abd. Khalid, as my lecturer in Information System Project (ITC 599), for the knowledge given in the class.

I also want to thank Cik Zolidah @ Lily Binti Kasiran as my internal supervisor, who gave time, energy and support during this report was under development. I gain a lot of valuable information and advise from her.

Special thanks to Puan Kasilah from Research Department, Ministry of Education who willingly to cooperate with me by sharing information about my research at school and providing all the information regarding the topic for me.

I also want to thank Puan Hajah Suriati Bt Haji Ismail, headmistress of Sek. Men. Taman Sri Muda, Shah Alam and all the teachers for the cooperation given to do research at the school.

Lastly, thanks to all my family and friends for giving cooperation to make this project report written successfully. Thanks for all supports and encouragement. May Allah bless you.

TABLE OF CONTENTS

| | |
|--|----|
| ACKNOWLEDGEMENT | i |
| ABSTRACT | v |
| CHAPTER 1 INTRODUCTION | |
| 1.1 Project Background | 1 |
| 1.2 Project Objectives | 2 |
| 1.3 Project Scope | 2 |
| 1.4 Project Significance | 2 |
| | |
| CHAPTER 2 WEB DATABASE APPLICATION | |
| 2.1 Literature Review | 4 |
| 2.1.1 Database Concept | 4 |
| 2.1.2 Web Database Processing | 5 |
| 2.2 Database-driven Website For Education | 5 |
| 2.2.1 Student Information System | 6 |
| 2.2.2 University Examination Result System | 7 |
| | |
| CHAPTER 3 SYSTEM METHODOLOGY | |
| 3.1 The Design Process of Database | 8 |
| 3.2 The Design Process of Web | 10 |
| 3.3 System Evaluation | 13 |
| 3.3.1 Entity Relationship Diagram | 13 |
| 3.3.2 Data Flow Diagram | 14 |

| | |
|--|----|
| 3.4 Web Database Processing | 15 |
| 3.4.1 Structured Query Language SQL) | 15 |
| 3.4.2 Database Microsoft Access | 15 |
| 3.4.3 Web Sever-Personal Web Server (PWS) | 15 |
| 3.4.4 Server Side Script-Active Server Pages (ASP) | 16 |

CHAPTER 4 ONLINE SCHOOL REPORT CARD SYSTEM

| | |
|------------------------------------|----|
| 4.1 System Facilities | 18 |
| 4.1.1 Students Information | 18 |
| 4.1.2 Parents/Guardian Information | 18 |
| 4.1.3 Co-Curricular Information | 18 |
| 4.1.4 Examination Result | 19 |

CHAPTER 5 RESULT AND DISCUSSION

| | |
|---|----|
| 5.1 Main Page | 20 |
| 5.2 User Login | 20 |
| 5.3 Main Menu | 20 |
| 5.4 Create New, View, Update and Delete Records | 20 |
| 5.5 System Flow | 21 |
| 5.4 System Evaluation | 23 |
| 5.4.1 Strengths | 23 |
| 5.4.2 Weaknesses | 23 |

ABSTRACT

Online school report card is being developed to help teachers keeping the current record of student's examination result and disseminate it to parents and guardians. It is an introduction of a new communication medium via Internet between parents or guardians and school administrator. It will help them to view students' performance easier as it is delivered in an efficient way. They will not have to rely to the students to bring back the report card as it can be accessed anywhere and anytime. Only authorized user (teachers) can update the web database while other parties can only view the record.
