ACKNOWLEDGEMENT

In the name of Allah , The Most Gracious and The Most Merciful

First of all, thank to Allah , The Great Almighty for giving me the strength , ability and effort to complete this report in time. Without His consent , I would not able to handle this task properly.

Firstly, I would like to thank to our final year project coordinator, En Adzhar Abdul Kadir for his clear explanation , vital encouragement and support.

I would like to express my gratitude to those who have helped me either directly or indirectly. A special thanks to my dedicated supervisor , Puan Zolidah Kasiran for her help , guidance and enthusiasm throughout the whole process in completing this project.

Million of thanks to my beloved parents, Mohd Nordin Bin Mohd Don and Sulasanah Binti Selamat for the support and encouragement. Thanks also to all my friends for special support and help. Without of all your support and assistance , I think I could not afford to stand strongly and finish the project completely.

Last but not least , thanks to all the resources for their cooperation and encouragement in helping me during the project and completely it. Thank for everything.

ABSTRACT

This project is about to develop a system for the people who cannot understand the short form Bahasa Malaysia words when they received it. Nowadays many people use the SMS to save time and cost. This system involve between server and clients. The server will be install in a personal computer and a hand phone will be use as a client. The system only keeping the database short-form SMS Bahasa Malaysia from questionnaires from students. People can send the short-form words to the server through the sms gateway to know the meaning and the system will reply the answer.
