Table of Content

Content	Pages
Acknowledgements	
Chapter 1 – Detail of Property	
1.1. Building background	1
1.2. Building view	2
1.3. Location plan	3
1.4. Surrounding area	4
1.5. Property description	5
1.6. Function of Permaisuri Resort Hotel (PRPD)	6
1.7. Building accommodation	7
1.8. Facilities provided	8 – 9
1.9. Organization chart	10 – 11
1.10. Scope of work	12 – 16
1.11. Objective study	17
1.12. Method of Study	18 – 19
1.13. Operation time and staff	20
Chapter 2 – Literature Review of Mechanical & Building Services	
2.1. Introduction of Maintenance	21
2.2. Building Technology	22
2.3. Maintenance Policy	23
2.4. Why Need to Maintenance	24
2.5. Type of maintenance	25
2.6. Definition of Mechanical (Engineering)	26 – 28
2.7. Definition of Building Services (Mechanical)	29 -32
Chapter 3 – Operation of mechanical services in case study	
3.1. Introduction	33
3.2. CCTV	34
3.3. Gen-Set Room	35
3.4. Lift	36
3.5. Fire system	37 – 45
3.6. Cooling tower	46 – 49
3.7. Water supply	50
3.8. Air-Condition system	51 – 54

ACKNOWLEDGEMENT

Alhamdulillah with the blessing from the Almighty Allah, I was finished this assignment on time. Thanks to Almighty Allah for his blessing. I appreciate to my supervisor for her helps and fully supported. Also special thanks to my parents that have taken good care for me and guide me until end of this report. Those who involved either directly or indirectly to help this project complete, thanks a lot and may Allah bless all our days.

The report is based on my case study in Permaisuri Resort & Hotel (PRPD). There are many things that I have to study about at the chosen place that I practical as the main subject to discuss. There are certain problems I have to face in completing this Practical Report such as to select a title but Alhamdulillah, I have done our best and this is my report for Practical Training Report (BSD351) course.

Maybe I still have done some weakness in this report because I was not totally perfect but I was tried my best and give a lot of commitment in this course. I hope that this research will help me to improve my knowledge as future building surveyor. Once again, a lot appreciation to all who are involve in this report especially Maintenance staff of PRPD for their cooperation whether directly or indirectly in the success of making this report more perfect. The best is from Allah, the weakness is from us.

.
Thank you.

ABSTRACT

In this practical report contains information and detail about property company, the owner of the building and others. Experience about how to conduct the mechanical and electrical services in residence building. The position that I had at PRPD is maintenance staff. This report contain about what is mechanical in engineering term and what is mechanical system in building services with same word in different meaning. In time my practical, my case study and report will cover a little more about mechanical facilities and system such as lift, fire alarm, water supply pump, cooling tower, air – condition and other else.

Overall, this practical report is very simple. It can explain about what is mechanical in engineering and what its cover. After that, what is mechanical in building services term and what its cover. I'm also show that what I have learn and what have I do and proposed to maintenance department to do more better then that when financial is lack.
