ACKNOWLEDGEMENT

First of all, thanks for God that give us a good in healthy and help us to make a decision in any happens that to decide and get the government building which Natural Resources and Environment building also to completed all the site visit and finished the report Integrated Final Project (IFP). Without Him, we cannot do our assignment either we only walk in Natural Resources and Environment building to do an Inspection of this building. Besides that, thanks for our parents that help us and give a supporting to us to give a suggestion in any happens. They help us to give an advice to front all of the staff in NRE building.

Moreover, we also thanks to the lecturer, Mr. Mohd Nurfaizal bin Baharuddin that teach us about the Integrated Final Project (IFP) for every chapter and give all the information for us to get information about the site visit in NRE building that located at Putrajaya. Not forget to our supervisor, Puan Zuraihana binti Ahmad Zawawi that supervise us to checking all our works for every chapter and guides us to make a good works in this IFP report and presentation for first stage until end of the stage consist of stage 1, 2, 3 and 4. They give us more helps to complete the report. In addition, they spent their time to teach and give guidelines to make a good and complete report so that we can get more information about the integrated Final Project report that we do not know before this. We also thanks to Miss Jeevadarshini A/P Pilayanthran and Mr. Yusseri bin Naseri that give us a permission to do the inspection in NRE building and get the information about the building.

Besides that, we thanks for our group mate for give a cooperation to complete our assignment Integrated Final Project in this semester, which consists of Azinuddin bin Azlani, Lukhman bin Arip, Mohamad Safri Azwadi bin Mohamad, Najmi Maisarah binti Ramli, Nor Afidah binti Ja'afar and Nur Liyana binti Abdul Rashid. They give more commitment and help for give a suggestion in this report. We not forget to all our friends, students AAP1195A for give us an opinion and teach us to make a good report also give cooperate for us to get information that we missed from a lecturer.

1.1 INTRODUCTION

Figure 1.0 Natural Resources and Environment building

Ministry of Natural Resources and Environment (NRE) is located at Natural Resources, 25 Persiaran Perdana, Presint 4, Putrajaya, and Federal Territory of Putrajaya, Malaysia. The Prime Minister established the Ministry of Natural Resources & Environment (NRE) on March 27, 2004 following the formation of a new cabinet. There are 17 floors of offices, two basements, one of ground floor level and one rooftop so the building has 22 floors in total. The height of the building is 77m. This building had built by Putrajaya Holdings (PJH) and NRE bought the building as a ministry office. The expenditure for site rental is RM 7, 532, 973, 03 every four months. There are some facilities provided in the building of which are prayer room, offices, meeting rooms, library, and gymnasium and so on. These facilities made for employees, make their feel more comfortable, and can facilitate their work. 'Surau' has built for Muslims to perform their prayers. The capacity of the 'Surau' is 100 people can fit in the 'Surau' in one time.
