Learning Tajweed For Children
Using Active Learning Approach

Aida Bt Abdul Rahman

Thesis submitted in fulfillment of the requirements for

Bachelor of Computer Science (Hons) Multimedia Computing

Faculty of Computer & Mathematical Sciences

May 2009

ACKNOWLEDGEMENT

Assalamualaikum w.b.t. In the name of Allah, the Most Gracious, the Most Merciful. This project was made possible by the efforts of many people and parties that provided valuable information, references material and collaborative support.

First of all, my gratefulness to Allah for giving me the strength and energy to successfully complete this project. Special thanks to my supervisor; Dr. Marina Bt Ismail for her utmost assistances in aiding me to complete the final year project, the constant guidance, numerous ideas and all the valuable advices that I really appreciate. Thank you also to my project coordinator; Pn. Ismassabah Bt Ismail for the guide and advice in completing the report. A special appreciation also goes to Ustazah Zuhra Bt Abu Bakar, the religious teacher from KAFA Integrasi Saidatina Khadijah for providing the valuable information on the project.

Last but not least, thank you so much to my beloved mother;

and also my family that supports me, my colleagues for giving ideas and assisting me to complete the project, and my lecturer; En. Mohd Yunus Bin Mohd Yusof for the support and encouragement for me to complete the thesis successfully. May Allah S.W.T repay all your kindness. Thank you.

ABSTRACT

The project is titled Learning Tajweed for Children Using Active Learning Approach. The project will use active learning approach in the teaching process. Nowadays, there are many ways to make learning more interesting. One of the ways is through multimedia technology. This is because through multimedia technology, elements like video, animation, graphics, audio and texts can be incorporated. With this advancement in technology, children have more ways to learn about tajweed. Tajweed is rules of reading Al-Quran with proper pronunciation of even letters according to where the letters are supposed to be emitted *(makhraj)* and accomplished together with laws and appearances of each letters. The type of tajweed that is covered for this application is "izhar halqi". The project is implemented in Bahasa Malaysia. The project is a computer-aided learning (CAL) for school children in a range of 7 to 10 years old who already know how to read Quran. This application can be distributed on CDs. It is also suitable for teachers to use it in class to teach their students as a supporting material.

LIST OF TABLES ..... **ix**

LIST OF FIGURES ..... **ix**

CHAPTER 1

INTRODUCTION 1

1.0 Introduction 1

1.1 Problem Description 1

1.2 Objectives 2

1.3 Scope of the Project 3

1.4 Significance of the Project 3

CHAPTER 2

LITERATURE REVIEW 4

2.0 Introduction 4

2.1 Important of Taj weed 4

2.2 Active Learning Approach 6

2.3 Learning Theory 8

2.4 Learning Styles 10

2.5 The Current Method Used to Learn Tajweed 12

2.6 Children Interacting With Computer and Multimedia in Learning Process 13

2.7 Game-Based Learning 14

2.8 Similar Project to Solve the Same Problem 15

CHAPTER 3

RESEARCH METHODOLOGY 17

3.0 Introduction 17

3.1 Research Framework 17

3.2 Analysis 18

3.3 Design 19

3.3.1 Design Flow 19

3.3.2 Storyboard 21

3.4 Development 23

3.4.1 Prototype Development 24

3.5 Implementation 25

3.6 Evaluation 25

3.7 Hardware and Software Requirements 25

CHAPTER 4

RESULT AND DISCUSSION 27

4.0 Introduction 27

4.1 Project Design 27

4.2 Screen Design 27

4.2.1 "Welcome" screen 28

4.2.2 "Halaman Utama" screen 29

4.2.3 "Belajar Izhar Halqi" screen 31

4.2.4 "Latihan" screen 31

4.2.5 "Contoh Bacaan" screen 32

4.2.6 "Nun Sakinah" screen 33

4.2.7 "Tanwin" screen 35

4.2.8 "Permainan" screen 37
