

Universiti Teknologi MARA

Fine Motor Skills Development for Autism Children
Using Game-Based Approach

Noor Izdhora binti Mohd Bazid

A thesis submitted in fulfillment of the requirement for the
Bachelor of Computer Science (Hons) (Multimedia Computing)
Faculty of Computer and Mathematical Sciences

July 2012

ACKNOWLEDGEMENT

Alhamdulillah and thanks to Allah s.w.t for His willingness that this project was successfully completed. All the hard times are beautifully paid with the completion of this thesis.

Firstly, I would like to express my gratitude to my family who have been supported me in so many ways while doing this research, emotionally and financially. The time and supports are the things that keep me going on.

A deeply thanks also dedicated to my supervisor, Dr. Marina binti Ismail for her guidance and advices. Without her, it might be impossible to complete this project in time and correctly done.

Special thanks also to my lecturers, Mr. Mohd Yunus Mohd Yusof for keeping me on the right tracks and correcting my mistakes along the way for the completion of my proposal. The tips and explanations are very beneficial for my proposal.

Lastly, this appreciation is dedicated to my friends and anyone who directly or indirectly contribute in completing my project. Thank you for your time, knowledge and co-operation.

ABSTRACT

Game-based learning, whose non-technology roots go deep in the past, has become with the rise of computers the learning wave of the future. Tactile learning application has emerged due to advancement in development of tablet technology. With the introduction of this application that focuses on the motor skills development for autism children, research on the tactile learning which is the sensory of touch and the eye-hand coordination movement are being conducted to serve the best way to adopt the learning via tablet technology. Activities in the application shows an engaging and entertaining for children with ASD (Autism Spectrum Disorder) despite promote compromising learning experiences to the learners.

LIST OF TABLE	ix
CHAPTER 1	1
INTRODUCTION	1
1.1 Project Background.....	1
1.2 Problem Statement.....	2
1.3 Project Objective.....	2
1.4 Project Scope.....	3
1.5 Significant Study.....	3
1.6 Conclusion.....	3
CHAPTER 2	4
LITERATURE REVIEW	4
2.1 Introduction.....	4
2.2 Overview of Autism.....	4
2.3 Motor Skills of Autism.....	7
2.4 Tactile Learning.....	9
2.5 Technology for Children with ASD (Autism Spectrum Disorder).....	10
2.6 Tablet Technology.....	11
2.7 Games for Autism Children.....	13
2.8 Related Works on Learning Application for Autism Children.....	22
2.9 Conclusion.....	27

CHAPTER 3.....	28
METHODOLOGY.....	28
3.1 Introduction.....	28
3.2 Research Methodology.....	28
3.3 Conclusion.....	36
CHAPTER 4.....	37
PROJECT FINDING AND DISCUSSION.....	37
4.1 Introduction.....	37
4.2 Result.....	37
4.3 Testing and evaluation.....	51
4.4 Conclusion.....	56
CHAPTER 5.....	57
