Online Interactive Storytelling
of
Prophet Muhammad S.A.W

Wan Nurul Azreen Binti Nordin

Thesis submitted in fulfillment of the requirements for
Bachelor of Computer Science (Hons)
Faculty of Information Technology And
Quantitative Science

November 2008

ACKNOWLEDGEMENT

Firstly, I would like to thank Allah for giving me the strength to finish up this project even though I'm having difficulties in finishing it.

Next, I would like to dedicate my special thanks to my supervisor, Puan Marina Ismail, for guiding me and giving the clear view of this project so that I will follow all the needs of this project. Special credit also to my project coordinator, Tuan Syed Ahmad Sheikh Aljunid, for all his advises and encouragement given all along the semester, and his guidance in preparing the report and overall project.

Lastly, thank you to my beloved parents and friends that had helped a lot in supporting, understanding and encouraging me to finish up this project until the end. Thank you to everyone that has contributed in this project from the beginning until end.

ABSTRACT

Currently, historical events such as stories of Prophet Muhammad S.A.W are being presented in a linear way like story books. The previous research had proven that storytelling is a better way of learning than linear reading. As the explosion of current technologies, people prefer to have education through easier and attractive medium such as online application. This paper reflects on having an online interactive storytelling of Prophet Muhammad with multimedia elements and branching techniques to produce the interaction. The method used as the research framework is based on the System Development Life Cycle (SDLC), and the implementation of the prototype is based on digital storytelling design structure. As the result of the project, an interactive online storytelling is produced to fulfill the needs of learning about the Prophet's life. In conclusion, the project can be added with more interaction elements like intelligent agent to allow user-thinking.

Keywords: branching, historical event, multimedia interactive storytelling, online application.

TABLE OF CONTENTS

Declaration	ii
Acknowledgements	iii
Abstract	iv
Chapter 1: Introduction	
1.0 Research Background	1
1.1 Problem Statement	3
1.2 Objectives	3
1.3 Scope of Project	4
1.4 Significance of Projects	4
Chapter 2: Literature Review	
2.0 Introduction	5
2.1 Related Research on Interactive Storytelling	
2.1.1 Interactive Storytelling using Artificial Intelligence	7
2.1.2 Adaptive Digital Storytelling	10
2.1.3 Authoring for Interactive Storytelling	12
2.1.4 Branching Story Graph	14
2.2 Fundamental Design of Online Interactive Storytelling	16
2.3 Processes of Developing a Digital Storytelling	18
2.4 Technique to Apply Interaction in Storytelling	19
2.5 Other Topics Related to the Study	24
Chapter 3: Project Methodology	
3.0 Introduction	25
3.1 Research/ Project Framework	26
3.1.1 Planning Stage	27
3.1.2 Analysis Stage	27
3.1.3 Design Stage	27
3.1.4 Implementation	28

3.1.5	Testing	28
3.1.6	Documentation	28
3.2	Data Collection	29
3.3	Prototype Development	29
3.4	Techniques Used in the Application	31
3.5	Storyboard	
3.5.1	Content's Screens	32
3.5.2	Website's Screen	37
3.6	Measurement and Evaluation Design	38
3.7	Software and Hardware Requirements	
3.7.1	Software Requirements	39
3.7.2	Hardware Requirements	39
Chapter 4: Project Testing		
4.0	Introduction	40
4.1	Performance Measurement	40
4.1.1	Testing Result	41
4.2	Screen Design	
4.2.1	"Welcome" screen	41
4.2.2	"Menu" screen	42
4.2.3	"Tahun Gajah" screen	42
4.2.4	"Kelahiran Nabi" screen	42
4.2.5	"Nabi Dibesarkan" screen	42
4.2.6	"Nabi Menggembala" screen	42
4.2.7	"Hajar Aswad" screen	43
4.2.8	"Kerasulan Nabi" screen	43
4.2.9	"Keturunan Nabi" screen	43
4.2.10	"Perkahwinan Nabi" screen	43
4.2.11	"Website" screen	43
4.3	Branching Design	44
