ACKNOWLEDGEMENT

*With the name of Allah the most Gracious, the most Merciful creator,
I seek His Blessing on His Prophet Muhammad s. a. w*

All praise and glory be to Allah S.W.T whose infinite generosity has given me the strength to complete this final project in time.

My sincere gratitude, thanks and most appreciation goes to Encik Fauzi Mohd Saman as my supervisor, for his guidance, encouragement, patience and utmost support in guiding me to complete this research paper successfully.

Last but not least to my beloved parents, family members who always pray for my success in my study. Not to forget, special thanks to all my colleagues for their opinions, suggestions and cooperation they have given.

Finally, to whom I failed to mention, who involved either directly or indirectly contributed to this project. Thank you very much.

May Allah bless all of you. Amin.

UiTM Shah Alam, May 2011

Naimah bt Taher

ABSTRACT

E-Learning is one of the medium that support learning process. However, motivation is needed in order to ensure the learning process success. Motivation playing an important role in e-learning because without having a good motivation it is hard to engage students to continue their learning process. Multiple Intelligences is one of motivational theory and are divided into seven part which are Visual Spatial Intelligence, Verbal/Linguistic Intelligence, Logical/Mathematical Intelligence, Bodily/Kinesthetic Intelligence, Musical/Rhythmic Intelligence, Interpersonal Intelligence and Intrapersonal Intelligence. Visual Spatial Intelligence have been selected be to be explored for this research. By understanding their characteristic, behavior and what their best learning style, a prototype had been developed in order to improve their motivation to continue the learning process. In e-learning education visual element playing an important role to engage student to continue use the application. Through this research, a variety of visual cues had been applied in the UPSR learning website in order to enhance student motivation to continue using the application.
