BSc (Hons) IT

FACULTY OF INFORMATION TECHNOLOGY AND

QUANTITATIVE SCIENCES

MARA INSTITUTE OF TECHNOLOGY SHAH ALAM

SELANGOR DARUL EHSAN

NOVEMBER 1998

ACKNOWLEDGEMENT

First of all, I would like to express my greatest gratitude to my lecturer supervisor Encik Fauzi Mohd Saman for being very cooperative in giving opinions, informative advice and criticism to me. Without his patience and perseverance, this project would not be successful.

Personal thanks to my family who encourage me throughout this project and their understanding has strengthened me up.

Special thanks is owed to Puan Mardziah Hj Hashim, En M. Zaki Hj Ghazali (Course Tutor for CS 20), Irene Nicholas, Zulkifli Hanafi, Salina Daud and to all my friends for giving their guidance and support in the preparation of this project.

Not forgetting, special thanks to all the people who contribute directly or indirectly towards this project.

Thank you.

ABSTRACT

The FTMSK consulting and services homepage is a system for reservation and renting of computer laboratories, classrooms, and fully equipped seminar rooms, giving consultation contact information and registration for computer training. Users can do reservation of rooms and computer training registration online. Users can get information about the consultation contact at the Faculty. The system will be implemented using HTML and Perl V5.0. The system is included in the FTMSK existing homepage.

CONTENTS	PAGE
<i>ACKNOWLEDGEMENT</i>	(i)
<i>ABSTRACT</i>	(ii)
<i>TABLE OF CONTENTS</i>	(iii)

CHAPTER 1 : PROBLEM DESCRIPTION

1.1	Background of the problem	1
1.2	Problem Description	2
1.3	Problem Scope	2
1.4	Problem Significance	3

CHAPTER 2 : LITERATURE REVIEW

2.1	Detail Description of the Problem	4
2.2	Definition of Pertinent Technical Terminology	5
2.3	Different methodologies/approaches to solve the same problem	18
2.4	Different methodologies/approaches to solve the similar problems	23

CHAPTER 3 : PROBLEM DEFINITION

3.1	Project Objectives	25
3.2	Project Scope	26
3.3	Project Methodology/Approach	27
3.4	Software and Hardware Required	29
3.5	Project's Benefits	30

CHAPTER 4 : SYSTEM DESIGN

4.1	System Approach	31
4.2	Methodology in Project Development	32
4.3	System Flow	33
4.4	Input/Output Design	35
4.5	File Structure	36

CHAPTER 5 : PROJECT IMPLEMENTATION

5.1	System Overview	37
5.2	Modules Involved	39
5.3	Record Format	42
5.4	System Requirements	44
5.5	System Constraints	45

CHAPTER 6 : CONCLUSION 46
