## APPROVAL SHEET

I hereby recommend that the thesis prepared under my supervision by Aimi Syaairah Binti Hafidzi (2008411356) entitled Archiving Expressed mRNA Transcripts By Using CapFinder Method be accepted in partial fulfilment of the requirement for the degree of Bachelor of Pharmacy (Hons), from the Faculty of Pharmacy, UiTM.

## **ACKNOWLEDGEMENT**

First of all I feel grateful and thank to all Mighty One, Allah because only with the power and His permission this research can be completely done in the time given.

Here I also would like to express my sincere thanks to those who have helped me in my mission to achieve successful research. Firstly, I am pleased to acknowledgement my supervisor, Dr.Rosmadi Mohd Yusoff for his support, guidance and advice throughout the research period. Without his effort, I could not have an opportunity to study deeply biogenetic field.

Secondly, to the coordinator for PHR 555 course, Ms. Ruzianisra Mohamed for her knowledge, taught and guidance.

Besides that, a special thank to my research partner, Noor Haslina Zainor Abidin, and also master student for their support and helpful to finish up the research.

Not forgettable, thanks to Prof. Dr. Hj Abu Bakar Majeed as let us using the lab and equipment in Brain Lab at level 7, Faculty Pharmacy.

Finally, my thanks go to my parents, friends and all people that involved in completely this research.All the good one comes from Allah, and all the bad one in my mistake.

Thank You.
