ACKNOWLEDGEMENT

First and foremost, I would like to express my earnest appreciation to my supervisor, Assoc. Prof. Dr. Teh Lay Kek for her interest, support, understanding, motivation and guidance throughout this research study period.

Special thanks are dedicated to Prof. Zaki Salleh and Ms Fazleen for helping me during my experiment and also for their ideas and guidance. I also would like to thank every staffs and all postgraduates students for their cooperation and kindness to teach me along the study period.

Last but not least, I convey my thanks to my family and my colleagues who gave me a lot of moral support in completing this thesis
