**THE TECHNICAL FEASIBILITY
STUDY ON PREPAID DATA
PURCHASE MOBILE APPLICATION
FOR XOX PREPAID SUBSCRIBERS**

ABSTRACT

XOX is a mobile telecommunication service provider which is owned by XOX Berhad has been offering its services that include voice, SMS, and Data. Due to the current vast emergence of various types of mobile application, it is embarking on the development of mobile application to cater the demand of its subscribers. As an initial start up, XOX being realized that its Prepaid subscribers are having difficulties in remembering or recalling the Data SMS command which occurred normally during their intention of purchasing the Data service, the notion of developing the mobile application specifically for Prepaid Data Purchase came into view. Thus, in order to decide whether it is technically feasible to execute, the researcher has initiated a study to have a closer view on the issues that contributing the idea of the development. Another purpose of the research is to gather information on its technical specifications required to determine the feasibility of its development so that it may assist the organization's top management in their decision making. Content analysis on the found articles and documentations were being conducted in identifying the issues that relates to the suggestion of developing the mobile application. Interviews were being conducted in gathering data on the issues as well as the technical specifications required for the mobile application development. Based on the current Data purchase mechanism as its fundamental requirements and technical specifications obtained a prototype was being developed for user to evaluate in order to assess the technical feasibility of the mobile application development and the acceptance of user towards the mobile application. The prototype evaluation is based on hands on testing and user feedback through a set of questionnaire. The data collected underwent analysis using SPSS 16.0 by identifying the frequencies and percentage to know the recurrence of the responses. The outcome of the study comprises of the list of issues that trigger the organization to have the idea of developing the mobile application, the technical specifications required for the development, and the technical feasibility of the development. Incorporating the findings on technical specifications, and the prototype evaluation, the study found that the organization possesses adequate technical requirements that are able to cater for the mobile application development and the prototype is easy to use and preferred by the user make it technically feasible to be developed.

ACKNOWLEDGEMENT

First and foremost, the deepest gratitude of all shall be bestowed to Allah the Almighty and The Merciful for all the insight which He gave to us that lead to the completion of this research. Without His blessings and consent, I might not have enough courage and determination to complete this research. All my thanks and appreciation will be lay upon Him.

My deepest gratitude is extended to Dr. Natrah Binti Abdullah @ Dollah, for all assistance, advice, guidance, encouragement, new ideas and invaluable support given as my project supervisor for a better quality in my research. Thank you for being such a great mentor. I also would like to express my gratitude and sincere appreciation to her invaluable knowledge, comments and recommendations on how to enhance my research.

Not forgetting very special thanks to staff of XOX, participants and all the lecturers, friends also colleagues of Master Science (Information Technology) for their support and encouragement during the process of completing this research.

Finally, I would like to express my deepest gratitude to my beloved parents and families for the support and courage towards my success. Without their personal sacrifices and being a constant source for encouragement, especially in the final stages, this thesis would not have been possible.

TABLE OF CONTENTS

	Page	
AUTHORS'S DECLARATION	i	
ABSTRACT	ii	
ACKNOWLEDGEMENT	iii	
TABLE OF CONTENTS	iv	
LIST OF TABLES	vii	
LIST OF FIGURES	viii	
CHAPTER ONE: INTRODUCTION		
1.1	Research Background	1
1.2	Problem Background	2
1.3	Problem Statement	5
1.4	Research Aim	6
1.5	Research Questions	6
1.6	Research Objectives	7
1.7	Significance of the Study	7
1.8	Preliminary Study	7
1.9	Limitation and Scope	8
CHAPTER TWO: LITERATURE REVIEW		
2.1	Introduction	9
2.2	Mobile Technologies	9
2.3	Mobile Applications	10
2.4	Issues Leading to Mobile Application Development	11
	2.4.1 Customer Satisfaction	11
	2.4.2 Mobility and Ubiquity	14
	2.4.3 Addressable Market	15
2.5	Feasibility Study	16
2.6	Technical Feasibility Study	17
	2.6.1 Hardware	17

2.6.2	Software	18
2.6.3	Network	19
2.6.4	Information and Data Management	20
2.6.5	Human Resources or IT Department	21
2.7	Requirements	21
2.8	Agile Mobile Application Development Methodology	22
2.8.1	Mobile-D	23
2.8.2	Scrum	24

CHAPTER THREE: RESEARCH METHODOLOGY

3.1	Introduction	26
3.2	Research Methods	26
3.2.1	Phase 1: Preliminary Study	26
3.2.2	Phase 2: Define Research Problem	27
3.2.3	Phase 3: Determining Issues Leading to the Development of XOX Prepaid Data Purchase Mobile Application .	28
3.2.4	Phase 4: Identifying Technical Specifications Required for the XOX Prepaid Data Purchase Mobile Application Development	28
3.2.5	Phase 5: XOX Prepaid Data Purchase Mobile Application Prototype Evaluation	30
3.3	Ethical Issues	36

CHAPTER FOUR: FINDINGS AND ANALYSIS

4.1	Introduction	37
4.2	Issues Leading to XOX Prepaid Data Purchase Mobile Application	37
4.3	Technical Specifications of XOX Prepaid Data Purchase Mobile Application	39
4.4	XOX Prepaid Data Purchase Mobile Application Prototype Evaluation	42
4.4.1	Prototype Development	42
4.4.2	Prototype Evaluation	45
4.5	Discussions	54
