With the name of ALLAH the most Gracious, the most Merciful

AlhamduHllah, firstly I would like to express my thankfulness to Allah S.W.T the Almighty for His mercy for giving me the strength' and have guided me through the challenge during my Final Year Project completion. If not for his consent, I would not have been able to do this task.

I would like to take this golden opportunity to dedicate a special thanks and appreciation to my project Supervisor Mr Wan Ya Wan Hussin for his advice, criticism, guidance and creative ideas in every stage of this project and providing me his time and effort to keep the project jn progress. This project would also not be possible and successful without the help and support from my course coordinator, Dr. Nasiroh Omar and Prof. Madya Zaidah Ibrahim. Thank you for your patience and trust me towards completing this project.

In order to help me to complete this project, my thank you also extends to my beloved parents for their support and to all my friends, thank you for giving me support, guidance and willingness to share valuable resources with me. I would like express my gratitude to the people who had been supporting me from beginning until the end of this project. Finally, I hope that all of my efforts are blessed by Allah S.W.T. and with this, thanks again to everyone. Only Allah S.W.T can replay your kindness.

## **Abstract**

Personalize notification agent for the examination timetable developed to give notification to student about their examination timetable. The system will provide examination information to student that contains the examination date, venue and time. The implementation, which follows Extreme programming (XP) methodology will produced prototype that implements personalized notification agent in Microsoft Windows Vista's sidebar gadget.

CHAPTER 1: INTRODUCTION	
1.1    Background	1
1.2    Problem Statement	3
1.3    Objectives	3
1.4    Project Scope	4
1.5    Project Significant	4
CHAPTER 2: LITERATURE REVIEW	5
2.1    Introduction	5
2.2    Overview Agent	5
2.2.1    Agent Definition	5
2.2.2    Agent Attribute	6
2.2.3    Agent Type	6
2.2.4    Agent Component	7
2.3    Software Agent Technology	7
2.3.1    Support Computing Technology	9

CHAPTER 3: METHODOLOGY	11
3.1 Introduction	11
3.2 Exploration Phase	13
3.3 Planning Phase	15
3.4 Iterations to Release Phase	16
3.4.1 First Iteration	17
3.4.2 Second Iteration	21
3.4.3 Third Iteration	22
3.4.4 Fourth Iteration	25
3.4.5 Fifth Iteration	27
3.5 Productionizing Phase	28
3.6 Documentation Phase	29
3.7 Hardware and Software Requirement	29
3.7.1 Hardware Requirement	29
3.7.2 Software Requirement	30
 CHAPTER 4: RESULT AND FINDING	
4.1 Introduction	31
4.2 System Requirement	31
4.2.1 Use case Diagram	31
4.2.2 Use case scenario	32
4.2.3 sequence Diagram	32
4.3 System Design	32
4.4 Implementation	35
4.5 Testing	35
 CHAPTER 5: CONCLUSION AND RECOMMENDATION	
5.1 Conclusion	36
5.2 Recommendation	37
