ACKNOWLEDGEMENT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Who is the Most Gracious, Most Merciful and Him alone is worthy of all praise.

Thanks to the Almighty Allah for allowing me to accomplish this project paper successfully.

This project paper is prepared to fulfill the requirements of the degree of the Bachelor of Business Administration (Honours) Finance of the faculty of Business and Management, Universiti Teknologi MARA, Dungun Campus.

First and foremost, I am deeply indebted to my advisor, Encik Badrul Hisham Kamaruddin, for giving me his valuable time and also who had made detailed correction, comments, suggestions and guidance in the preparation of this project paper, he is an excellent advisor.

I am also grateful to the staffs of the Kuala Lumpur Stock Exchange (KLSE) library; the Tun Abdul Razak II (PTAR II) library, Universiti Teknologi MARA, Shah Alam; the Tun Abdul Razak library, Universiti Teknologi MARA, Dungun campus.

My gratitude also goes to my parents and all my fellow friends who had supported and gave good encouragement during the two years pursuing my bachelor's degree.

والسلام

ABSTRACT

This project paper is prepared in partial a fulfillment of the degree of the Bachelor of Business Administration (BBA) Finance. For this purpose, I have selected a topic entitled, “ *An analysis of the performance of construction companies listed on the Kuala Lumpur Stock Exchange (KLSE) using financial ratio analysis* ”

The purpose of this study is to enable the readers to become aware that there exists models that could be applied in analyzing the current performance of companies, especially in detecting symptom(s) that might lead to a success or failure.

The ratio analysis is one of the methods in analyzing the performance of a company's success and failure. Therefore, this project paper will provide a view of corporate performance, which is vital to a company. Besides that, this study also reveals the usefulness of the ratio analysis.
