## PENANG INTERNATIONAL DRAGON BOAT FESTIVAL

With over 40 years of experience in organizing this event, the International Dragon Boat Race is now a major water sport in Penang and the most inspiring festival in Malaysia. The race covers a distance of 200 meters and 500 meters straight course only. It is a two-day event held in June. Teams from all over the world compete in intricately designed dragon boats and paddle to the balanced beat of the drum. The drums beat rhythmically as the extensive colourful boats glide across the surface led by huge dragon heads. It's free admission, so come over to the Teluk Bahang dam, check out the festival and support your favorite players. The Dragon Boat Festival is an exclusive experience for both local and tourists who are in Penang.
