ACKNOWLEDGEMENT

All praise be to Allah SWT, grateful to Allah SWT for His guidance , has given me permission to complete this Industrial Training , Industrial Training is a sign of my appreciation to all those involved in helping and guiding the useful during my industrial training , five months from February 3rd to June 30th , 2014 . Firstly I would like to thank the National Archives of Malaysia, Kedah and Perlis Branch especially Mr.Shaffie bin Awang as Branch Director of National Archives of Malaysia, for accepting me to do Industrial Training. Thank you to all the staff were helpful and provide mentoring , and also not forgetting to fellow trainers who have helped me either directly or indirectly in theory and skills to me during my training. My gratitude to my coordinator Mrs.Che Rehan bin Harun and all the staff of the National Archives of Malaysia, Kedah and Perlis Branch has guiding me during my training. A wealth of knowledge that has already given, I would share in this report for view of readers, as well as a sign of appreciation to the National Archives of Malaysia, Kedah and Perlis Branch.

In addition, do not forget to management at the Industrial Training Unit of UniversitiTeknologi MARA (UiTM), Johor for trying to put myself into the Industrial Training center, mainly to the lecturers and my supervisor Mrs. Siti Nuur- Ila binti Mat Kamal. No this forgotten my appreciation goes to my parents for a lot of encouragement, advice and encouragement and helped me financially. Finally, I would once again like to extend our heartfelt thanks to all those involved directly nor indirectly in the success of my industrial training, everything that I confronted during my industrial training I have been booked for reference in addition to the reader or to broaden their knowledge in the field to get involved. Thank you.

ABSTRACT

With the advance of the technology, digital technology such as computer, smartphones, digital cameras and many others digital tools are no longer exclusive for certain group. Nowadays, digital technology has emerged as one of the learning tool to assist in the learning process. As we know students all over the world use computers and Internet technology, thereby informally learning how to learn with the technology. It is widely argued that technology, computers and the Internet shape how we think. Thus, in this research, a few issue will be focused; the trend of using digital technology among students, the contributing factors which is internal and external factors why student choose digital technology in learning, and lastly what is the impact of using digital media on the student's learning behavior.

Keywords: ANMCKP, digital learning, behavior, technology, and learning process.
