ABSTRACT

The people lifestyle has been changed in this new era. Everything has become sophisticated in this modern world especially in the automobile sector. As we all know the automobile sector in Malaysia facing many problems, especially in the design aspect so we need to do something with it.

Not being left behind transportation such as sea waterfront vehicles. Nowadays, these types of vehicles are rarely too commercial in market sector. In basically this vehicles are known or use just for resting and enjoying. For example, Jet Ski, banana boat, canoe and surf boat are one of the vehicles for sea waterfront. Usually this type of vehicle only had been use for one activity only. This vehicle are use at Tioman Island, it is because Tioman Island is one of the interesting place and location for foreign and local tourist comes for relaxing, besides that this vehicles also are use for activity in waterfront sea shore.

Tioman Islands is reputedly one of the ten most beautiful islands in the world. The invention for sea waterfront vehicles will be upgraded with a new design to complete the criteria such as the old design was combine with hovercraft, applicable for any condition and enable to perform a variety activity such as bathing , reading and resting .
