ABSTRACT

This research aimed to investigate the transportation needs in the tourism sector in Malaysia to investigate the situation of transportation nowadays. This research utilized questionnaires to collect data from respondents and through observation, internet and interview. The results of the study revealed show that caravan had a same type of design. The study also discovered that the caravan need to be change from their design, colour and size. It was also discovered that the caravan need to improve their design of caravan so that they could perform their job better. In addition, The researchers have found the weakness and the stongest about the vehicles that has been choosen . In short, this research has identified the major trouble and where necessary can be taken to make caravan be more useful through all kind of people who love traveling ,vacation,camping and for those who love an environment.
