ACKNOWLEDGEMENT

Praise be to Allah S.W.T Most Gracious, Most Beneficent

First and foremost, I would like to extend my deepest appreciation and gratitude to my supervisor Mdm Hasiah Mohamed@Omar for her help, concern, continuous advice and also encouragement throughout the course of the research. Not forgetting our thesis advisor, Encik Saiful Nizam b. Warris for his valuable guidance which gives way to the completion of this thesis.

I would also like to record my sincere thanks to teacher of Sekolah Rendah Islam al-Amin, Dungun for all the precious assistances given to me not only in ensuring the completeness of my research, but also turning this research into a life valuable experience.

My utmost gratitude to my fellow friends for all the helps and ideas provided during the course of carrying out the research and development of this thesis.

Last but not least to my loving parents and family for their patience, understanding and support during the whole period of the research.

ABSTRACT

The purpose of this study is to develop a teaching method for learning basic tajweed. It is called Tajweed as Student Easy Resource (TaSER) courseware. The fact shows that there is lack of application related to the tajweed and students do not attract to learn it. This study aims to shed some lights on this issue with providing necessary knowledge pertinent to children on the age of nine and ten years old to gain knowledge of tajweed. ADDIE instructional model is used in order to develop this courseware. It consists of five phases; analysis, design, development, implementation and evaluation. It is then tested by two methods, unit testing and user testing. This courseware is designed in Malay version, consisting two sections. Each section represents level of the students. Besides, this courseware provides an exam section to evaluate the understanding of the users and a section for overall topic that covered in the courseware. In addition, the results show that 69.9% of the respondents agree with the usability of the courseware and 58.57% agree with the functionality of the courseware.

TABLE OF CONTENT	iv
LIST OF TABLES	vii
LIST OF FIGURES	viii
ABSTRACT	x

CHAPTER 1: INTRODUCTION

1.1	Introduction	1
1.2	Problem Statement	2
	1.2.1 Lack of the Application about Tajweed	3
	1.2.2 Students do not attract to learn tajweed	3
1.3	Research Objective	3
1.4	Research Scope	4
1.5	Significant of the study	4
	1.5.1 to the researcher	4
	1.5.2 to the community	4
1.6	Research framework	5
	1.6.1 Analysis	6
	1.6.2 Courseware Development	6
	1.6.3 Testing	7
	16.4 Report Writing	8
1.7	Conclusion	8

CHAPTER 2: LITERATURE REVIEW

2.1	Introduction	9
2.2	Multimedia	9
2.3	Courseware	12
2.4	Tajweed	13
2.5	ADDIE Instructional Design Model	16
2.5.1	Definition ADDIE Model	16
2.5.2	Definition of Instructional Design Model	17
2.5.3	History	18
2.5.4	The Phases of ADDIE Model	19
	a) Analysis phase	19
	b) Design phase	20
	c) Development phase	20
	d) Implementation phase	20
	e) Evaluation phase	21
2.6	Conclusion	21

CHAPTER 3: METHODOLOGY

3.1	Introduction	22
3.2	Analysis	22
3.3	ADDIE Instructional Design Model	23
3.3.1	Pre-production	25
	a) Analysis	25
	b) Design	26
3.3.2	Production	27
3.3.3	Post-production	29
	a) Implementation	29
	b) Evaluation	39
3.4	Testing	39
3.4.1	Unit Testing	40
3.4.2	User Testing	40
