With the title

**PROPOSED NEW DESIGN SCHEME FOR MISS SIXTY RETAIL SHOP AT LOT
03- 61, 62 63 & 64, THIRD FLOOR, BERJAYA TIMES SQUARE, NO 1 JALAN
IMBI, 55100, KUALA LUMPUR**

Accepted as fulfill one of the rules to get

Interior Architecture Diploma

Supervisor : Pn. Siti Rohamini Yussof

Coordinator : Cik Mawar Bt. Masri

Program Coordinator : Prof. Rusni Bin Abd. Ghani

Assalamualaikum.....

Firstly, many thankful to Allah SWT for given me spirit on everything, especially on doing this final report until it complete. The process of writing this “report” requires the support of a great many people and organizations. Although it was written in solitude, the completion of this work would not have been possible without the help of everyone. Therefore, I would like to take this opportunity to thank all those who contributed to the successful actualization of this project.

First and foremost, I would like to express my sincere thanks to my thesis coordinator, Cik Mawar bt. Masri for believing in this enterprise from the beginning and for helping me bring this concept fruition. I also to express my sincere thanks to my thesis supervisor; Pn Siti Rohamini, for the support, understanding and turning this manuscript into a completed book.

I would like to thank my father, mother and my family for supporting me to begin my career as an interior design student in UiTM Seri Iskandar, Perak.

In addition, I would like to let the following individuals in UiTM Seri Iskandar, Perak, know how appreciative I am of their immeasurable contribution. And to my entire course mate, that given me support while I have been giving up writing up this final report.

ABSTRACT

The purposed of this final project is to realize the design process that involve in the preliminary findings, analysis case study and synthesizing Diploma of Interior Architecture. The suggested title of this project is Proposed New Design Scheme for MISS SIXTY Retail Shop at lot 03 – 61, 62, 63 and 64, Third Floor, Berjaya Times Square, No 1 Jalan Imbi, 55100, Kuala Lumpur.

Before writing this documentation, a lot of procedures has to be met and must follow a systematic process. Various important factors must be considered especially inside the angular space including environment outside the building. The first step before I started this project is to identify constraints and limitations of the existing site, interior and exterior.

This is extremely important because, it is aimed to explain what the site problem is and how it can be solve with the project. Research begins from basic design principles up to building roof.

Besides that, the research of interior space must also be considered as a case study. The nature of the case study directly or indirectly related to the project that I have proposed.

Research and data that I have collected are analysis, and lastly synthesized into my design.

CHAPTER 1.0 INTRODUCTION

1.1 INTRODUCTION

1.1.1 Title

Proposed new design scheme for Miss Sixty retail shop at lot 03. 61, 62, 63 & 64, Third Floor, No. 1, Jalan Imbi, 55100 Kuala Lumpur for Miss Sixty.

1.1.2 Mission

- Miss Sixty is committed to engaging in responsible environmental stewardship. We carry out this commitment in a manner that invigorates and strengthens our business.

1.1.3 Objective

- Each client and project has its own unique objectives. In order to this needed, I try to understand those objectives and express them in my way by visualizing the design with the product and shoppers.
- To set-up a competitive retail shops.
- To increase a branded lifestyle retail in Malaysia.
