I would like to thanks to my advisor Mr. Tony Paridi Bagang for his advice, guidance and openhanded in helping me to finish my research. Also thanks to Mr. Haijon Gunggut for helping me to teach about SPSS tools.

Mdm Floriane and Mdm Hjh Kamariah who had been very kind enough to help me a lots in providing the information needed, guidance, references materials available. To the editor mdm Mary Lopez, assistant Marketing Manager of Traverse Tours Sdn Bhd company, a lot of thanks for spending her time to editing my work. Last but not least, special thanks to my family and fellow friends especially part six (6) students of Bachelor of Administrative Science and colleagues for their patience, encouragement, understanding and inspiration that had given to me.

ABSTRACT

The purpose of this paper is to determine the perception on the benefit of programs offered by the Persatuan Ibu Tunggal Pantai Barat Sabah (PITPBS) toward to single mothers and to compare the perception between education which are SPM and below and STPM and above on the benefit of the program of the single mothers. Even though, single mothers has received a lot of attention from researcher and policy makers, but they are still lived in poverty cycle. By using questionnaires survey, the researcher has an opportunity to determine the perception of the single mothers on the benefit of programs offered by the PITPBS. Other than that, by using the convenience random sampling also, the researcher has targeted in Sabah population only especially to the single mothers. This finding has suggested that give more exposure about the existence of the single mother's federation through the media electronic, increase the number of expertise trainer for the association and give enough facilities to the single mother's federation.
