## ACKNOWLEDGEMENT

This final year project has been successfully completed with the assistance of various authorities. Hence, I would like to take this opportunity to express my gratitude towards the related parties who have provided guidance and comments along the process of completing this research project.

Firstly, thank you to our supervisor, Miss Anastasia Binti Harbi for providing his guidance, suggestion, advice, constructive comment and commitment to reply the team's queries promptly throughout this final year project. Miss Anastasia has always been ready to guide, support and sacrifice his valuable time for us when his assistance is needed by the team.

Besides that, I would also like to extend acknowledgement towards the UITM lecturers, coordinator and tutors who have guided the team with new insights, knowledge and ideas directly or indirectly on the process of completing this project. Moreover, thanks over the moral support, understanding and endless love which were given unconditionally from the families.

Lastly, the cooperation and support received from all members of this research who has contributed to this final year project as their efforts are crucial for the accomplishment of this project. The ideas, suggestions, motivations and inspirations from the all members have greatly contributed to the enhancement of this research project.
