ACKNOWLEDGEMENTS

First and foremost, I would like to express my special and sincere thanks and gratitude to Puan Hasnawati Guliling, my advisor, for her criticisms, continuous guidance and encouragement towards the completion of this research project. Her precious and constructive comments, broad views, ideas and willingness to answer related problems that geared me to embark this particular project paper.

I would like also to take this opportunity to thank and to give my special gratitude all women bumiputera entrepreneurs as respondents, my immediate, supervisor and staffs of Kota Belud District Council and Officer of Agrobank Kota Belud for their full co-operation and assistance in providing me all the necessary data and information.

Finally, I would like to extend my special thanks and utmost appreciation to my ex-Lecturers, classmates and individuals for their valuable supports and advices in preparing this project paper. To my beloved parents, husband and my children, thank you so much for the understanding and supports rendered to me in completing this project paper.

ABSTRACT

This study analyzes the entrepreneurial environment in Kota Belud, one of small districts in Sabah. Researcher selects the title ""THE EFFECTIVENESS PROMOTIONAL STRATEGIES FOR BUMIPUTERA WOMEN ENTREPRENEURS KOTA BELUD" because the district has the potential to produce more women entrepreneurs. Nonetheless, due to lack of promotional strategies and awareness, these women bumiputera entrepreneurs have no opportunity to grow as their businesses are mainly operated in Kota Belud.

The study revealed that the entrepreneurs are willing to expand their businesses if there are opportunities to do so, that is, by diversifying their products or services. The study also discovered that the promotional strategies are the missing link as some of the women bumiputera entrepreneurs are not using them to promote their businesses. However, they are now willing to use them as they are aware the importance and benefits of these tools.

It is hoped that the government, its agencies, the NGOs and women associations as well as the banks/financial institutions will come and help promoting these entrepreneurs to greater heights. Without their assistances, it is doubtful that the women entrepreneurs can grow or expand their businesses. Last but least, the entrepreneurs should also equip themselves and be prepared to be exposed to outside world. They must be prepared to take bigger risk if they intend to improve their businesses.
