ABSTRACT

This research is done to study the material used in gazebo at Presint 14 A Putrajaya. The study looks into type of material used as in gazebo as the findings. The methodologies involved in this research are observation, site and data analysis. The material used for the gazebo depends on the target user and the location of the gazebo. The user will appreciate the safe gazebo, hence the function of gazebo which is the place for gathering area are achieve.

ACKNOWLEDGEMENT

Bismillahirrahmanirahim. *Syukur Alhamdulillah* first and foremost, I would like to express my sincere gratitude to my supervisor En. Zakaria Bin Yaa'cob for the continuous support of my research study throughout the semester, for his patience, motivation, enthusiasm, and immense knowledge. I could not have imagined having a better advisor and mentor for my research study. I also would like to thank to my thesis coordinator: Asso. Prof. Ismail Samsuddin for her encouragement, and insightful comments during the formation of research.

I thank to my family for supporting me spiritually throughout my life and last but not least, I would like to my fellow studio mates and seniors for the stimulating discussions.
