ACKNOWLEDGEMENTS

We wish to express our sincere thanks to all those who have contributed and gave their unlimited help in some ways or others during this research work been done to come up with this report.

In particular to our project advisor, Puan Che Faridah Mat Taib, to our course coordinator, Encik Zaidi B Mohd Zain and our lecturers in Aerospace Engineering Department for their valuable support and guidance in completing our research project.

We also would like to thank to all Mechanical Component Workshop staff for all their help especially to Mr. Ahmad Izudin B Abdul Rahim the superintendent of Mechanical Component Workshop, MAS Aerotechnologies Sdn Bhd for the guidance and advise. We really appreciate for moral support and ideas from the Fuel Workshop staff for us to complete the report smoothly.

Lastly our special gratitude to Puan Norlin Bt Abdul Rahman for spending a lot of her time in helping to make this report possible.

PREFACE

This project is for the fulfillment of the requirement needed for final semester in Diploma In Aerospace Mechanical Engineering.

The project research was done in Component Workshop, MAS Aerotechnologies Sdn Bhd (MASA). The study of Aircraft Fuel and Fuel Spray Nozzle was done in Fuel Component Workshop. The study also included the Maintenance Documentation and Process that carry out in the Shop. In this project we also learned about the Overhaul Process of the Fuel Spray Nozzle on PW 125 Engine.

Lastly, we hope that the report will satisfy the requirement and also can give some information on Maintenance Aircraft Fuel Nozzle.

<u>CONTENTS</u>	<u>PAGE</u>
ACKNOWLEDGEMENT	
PREFACE	
1. GENERAL	1
1.1 MASA	1
1.2 MASA Management	2 - 4
1.3 Maintenance Organisation Exposition (MOE) & Inspection Procedure Manual (IPM)	5 - 6
1.4 MASA Engineering Capability	7 - 12
2. MECHANICAL COMPONENT OVERHAUL WORKSHOP	13
2.1 Location	13 - 14
2.2 Responsibilities	15
2.3 Mechanical Workshop Organization	15
3. FUEL WORKSHOP	16
3.1 Location	16
3.2 Fuel Component Workshop / Safety Requirement	16
3.3 Shop Man power	17

<u>CONTENTS</u>	<u>PAGE</u>
4. GAS TURBINE FUEL	18
4.1 Purpose	18
4.2 Requirement	18 - 19
4.3 Vapour Locking and Boiling	20
4.4 Flash Point	21 - 22
4.5 Anti-Static Additive	23
4.6 Water Contamination	23
4.7 Fungus Contamination	24 - 25
5. FUEL SYSTEMS / SPRAY NOZZLES	26
5.1 Principle of Fuel System	26 - 27
5.2 Fuel Burners (Spray Nozzle)	28 - 37
6. MAINTENANCE OF FUEL SPRAY NOZZLE	38
6.1 Documentation	38 - 42
6.2 Component Maintenance Manual (CMM) and Overhaul Test Schedule (OHTS)	43 - 45
6.3 Maintenance Process	46 - 49
6.4 Maintenance Process of Fuel Manifold Adapter Assembly for PW 125 Engine	50 - 58
7. CONCLUSION	59
