ACKNOWLEDGMENT

First and foremost, praise and appreciation to Allah, the Almighty, for showering His blessings on us during our study work, allowing us to successfully finish the research.

We would like to convey our heartfelt thanks to Dr. Mazlan bin Che Soh, our research supervisor, for allowing us to conduct a study and offering crucial advice throughout the process. We have been tremendously moved by his enthusiasm, vision, genuineness, and motivation. He taught us how to do research and present our findings in the clearest and most concise manner possible. Working and studying under his direction was a wonderful honor and privilege.

We owe our parents a debt of gratitude for their love, prayers, care, and sacrifices in teaching and preparing us for the future. We would like to express our gratitude to Mohd Ramlan bin Mohd Arshad, our lecturer, and our friends, for their genuine interest in completing this project successfully.

Finally, we want to express our gratitude to everyone who has helped us accomplish the research work, whether directly or indirectly.

ABSTRACT

This research was done to identify the factors that influence students' motivation during online distance learning in UiTM Seremban 3. This research identified the learning environment, workload, and student-educator interaction as significant determinants. The purpose of this study is to determine the link between all aspects that impact students' motivation during online distance learning. Through the use of Convenience Sampling and Quantitative Sampling, 232 respondents were sent online questionnaires that needed to be completed. The responders are mostly students from UiTM Seremban 3. Using IBM SPSS Statistics 26, each respondent's feedback and reaction will be dissected in order to examine the link between these three factors and students' motivation during online distance learning at UiTM Seremban 3. All of the aforementioned factors were proven to have a strong favorable effect on students' motivation during online distance learning at UiTM Seremban 3.
