ACKNOWLEDGEMENT

First and foremost, we were grateful to the Almighty for giving us courage, strength and cooperating in completing the research proposal. This research is in accordance with the coursework required for Research Methodology and Data Analysis (ADS555 APPLIED RESEARCH PROJECT).

Throughout the establishment of this research proposal, we would like to thank our supervisor, Madam Marni binti Haji Ghazali for the valuable guidance, advice and motivation given to us in order to complete this research proposal. Without her vital support and guidance, this research would never have been completed.

Finally, an honorable mention and thanks we want to share to our friends and colleagues who lend a hand through this report completion.definitely we would face many challenges and difficulties while doing this research proposal without help of the particular this research would never complete.

UiTM Teknologi Mara, Seremban, Negeri Sembilan.

ABSTRACT

This study was conducted to examine the student perception on virtual internship in skills development and its relation towards students' learning experience among Uitm's Students in Campus Seremban. The skill developments observed in this are measured in terms of thinking skill, soft skill and technical skill. In this study, the research objective is to identify the level of student learning experiences in relation to virtual internship in skill developments. By utilizing purposive sampling and quantitative approach, a total of 381 respondents were given a set of questionnaires via online and need to be answered.However, only 110 people responded to this study. Basically, the respondents are the students from UiTM Seremban 3 with particular evaluation for Faculty of Admin Science and Policy Studies.. By using IBM SPSS Statistics 20, all the feedback and response from the respondents will be analyzed in order to examine the relationship between these three skill developments, which are measured in terms of thinking skill, soft skill and technical skill with student learning experience. All of the skills mentioned above were found to have a positive significant relationship with the students' learning experiences among Uitm Students in Campus Seremban. Based on the research findings, the most influential skill development measured is technical skill.

TABLE OF CONTENT

CHAPTER 1 **1**

1.0 Introduction 1

1.1 Background of study 1

1.2 Problem Statement 2

1.3 Research objectives 4

1.4 Research Questions 4

1.5 Scope of study 5

1.5.1 Level 5

1.5.2 Territory 5

1.5.3 Time 5

1.6 Significance of study 6

1.6.1 University Students. 6

1.6.2 Private and Public Organizations 6

1.6.3 Ministry of Higher Education 6

1.7 Definition of terms 7

1.7.1 Internship 7

1.7.2 Virtual Internship 7

1.7.2.1 Thinking Skills 7

1.7.2.2 Soft Skills 8

1.7.2.3 Technical Skills 8

1.7.3 Student Learning Experience 8

CHAPTER 2 **10**

LITERATURE REVIEW & CONCEPTUAL FRAMEWORK **10**

2.0 Introduction 10

2.1 Definition of Internship 10

2.1.2 Virtual Internship 10

2.1.3 Virtual Internship in Skill Development 11

2.1.3.1 Thinking Skills 12

2.1.3.2 Soft Skill 12

2.1.3.3 Technical Skills 13

2.1.4 Student Learning Experience 14

2.2 Conceptual Framework 15

2.3 Independent Variable 16

2.3.1 Virtual Internship in Skills Development 16

2.3.1.1 Thinking Skills 17

2.3.1.2 Soft Skills 17

2.3.1.3 Technical skills 18

2.4. Dependent Variable 18

2.4.1 Student Learning Experiences 19

2.5 Hypotheses Statement 19

CHAPTER 3 **23**

RESEARCH METHODOLOGY **23**

3.1 Introduction 23

3.2 Research design 23

3.3 Unit of analysis 23

3.4 Sample Size 24

3.5 Sampling Technique 24
