Title of Proposal

The Social Impact of Covid-19 in Georgetown, Penang, Malaysia

Name of Student
NURIN IWANEE MARDHIAH BINTI MOHAMMAD JEFREE (2019612736)
NURUL IZZAH BINTI AMINUDDIN (2019219792)

AUGUST 2022

Acknowledgement

In the name of Allah, the Most Gracious and the Most Merciful

First and importantly, I want to express my gratitude to Allah the Almighty for His blessings throughout the execution of our final year project. However, we had to overcome a number of challenges in order to complete this assignment. Nonetheless, everything was completed with His assistance and grace and is ready to be given on the submission date.

This assignment is made up of two persons who work together to perform the joint evaluation. We work together to ensure that this assessment works successfully. We are pleased that we were able to accomplish the assignment within the deadline. We would like to offer our heartfelt appreciation to our final year project supervisor, Puan Saidah Hamizah Binti Ahmad that delivers us invaluable advice. Her enthusiasm, vision, integrity, and motivation have left us in admiration. She has given us the methods for carrying out the assignment in the most straightforward manner possible. It was a wonderful honor and joy to work and learn under her supervision.

Finally, we want to express our heartfelt appreciation to our loving, supporting family members. Their words of support when things were tough were truly valued and recognized. It gave us tremendous comfort and relief to know that they were willing to assist us in any way they could. Not to mention my heartfelt gratitude to everyone who assisted me in completing this final year project.

ABSTRACT

The purpose of this research is to find out the social impact of Covid-19 in Georgetown, Penang: family households' relations, working interactions, students' interactions among the society at Georgetown, Penang. The quantitative research method has been used in this research. The researchers had distributed the survey online through Google Form to all societies in Georgetown, Penang. Descriptive analysis was used to determine the impact of Covid-19 among the Georgetown citizens and the Pearson's correlation was used to investigate the relationship of the family households' relations, the working interactions and the students' interactions. The research's findings revealed that all three independent variables have relationship with the impact of Covid-19. More researchers may keep improving on this study by using more factors to evaluate the social impact of Covid-19 since this research is still new and has few sources to be used in the future study.

Keywords: Social impact, Covid-19, family households' relations, working interactions, students interactions

Table of contents

Chapter 1: Introduction

1.0 Introduction 1
1.1 Research background 1
1.2 Problem statement 4
1.3 Research question 6
1.4 Research objectives 6
1.5 Scope of the study 7
1.6 Significance of the study 7
1.6.1 Society 7
1.6.2 Government 7
1.7 Definition of terms, terminology and concepts 8
1.7.1 Social impact 9
1.7.2 Family household 9
1.7.3 Working interaction 9
1.7.4 Students' interaction 10

Chapter 2: Literature Review & Conceptual Framework

2.0 Introduction 11
2.1 Dependent Variables 11
2.2 Independent Variables 13
2.2.1 Family Households' Relations 13
2.2.2 Working Interactions 15
2.2.3 Students' Interactions 17
2.3 Conceptual Framework 20
2.4 Summary of Chapter 21

Chapter 3: Research Method

3.0 Introduction 22
3.1 Research design 22
3.2 Unit of analysis 23
3.3 Sample size 24
3.4 Sampling technique 24
3.5 Measurement 25
3.5.1 Demographic Data of Respondents 26
3.5.2 Level of Knowledge of the Georgetown's Citizen towards Covid-19 26
3.5.3 Family Households' Relations 28

3.5.4 Working Interactions 29
3.5.5 Students' Interactions 30
3.6 Data collection 31
3.7 Data analysis 32
3.7.1 Descriptive analysis 32
3.7.2 Testing of the hypotheses 33
3.7.3 Pilot study results (Reliability Test) 33
3.7.4 Summarize these decisions in tabular format 34
3.8 Summary of chapter 35

Chapter 4: Research Finding

4.0 Introduction 36
4.1 Demographic Profiles 37
4.2 Preliminary Findings 39
4.2.1 Reliability Test 39
4.2.2 Normality Test 40
4.3 Main Findings 41
4.3.1 Objective 1: To study the relationship between family households' relations with Covid-19 impact. 41
4.3.2 Objective 2: To study the relationship between working interactions with Covid-19 impact. 42
4.3.3 Objective 3: To study the relationship between students' interactions with Covid-19 impact. 43
4.4 4.4 Summary of Hypothesis 44
4.5 Summary of Chapter 44

Chapter 5: Discussion and Conclusion

5.0 Introduction 45
5.1 Summary of Research Objectives 46
5.1.1 Objective 1: To study the relationship between family households' relations with Covid-19 impact. 46
5.1.2 Objective 2: To study the relationship between working interactions with Covid-19 impact. 47
5.1.3 Objective 3: To study the relationship between students' interactions with Covid-19 impact. 48
5.2 Research Recommendation 49
