THE OPINION OF UNIVERSITY STUDENTS TOWARDS THE IMPLEMENTATION OF TEACHING AND LEARNING OF SCIENCES AND MATHEMATICS IN ENGLISH (PPSMI): A CASE STUDY AT MARA UNIVERSITY OF TECHNOLOGY (UITM) SEREMBAN 3

NAME OF STUDENTS:

NORA SAKILA BINTI MD RUZLI (2019253662)

NURUL AATHIRAH BINTI ADNAN (2019268066)

NAME OF SUPERVISOR:

DR. SHAHRIL EASHAK BIN ISMAIL

[AUGUST 2022]

ACKNOWLEDGEMENT

Firstly, we are grateful to Allah SWT for giving us a chance because we have completed the proposal of the project smoothly through the help from various parties either directly and indirectly. Although we have faced a lot of difficulties to complete this proposal, we are grateful because we can still manage to complete it and we are so glad about it.

We would like to express our appreciation and sincere thanks to Dr. Shahril Eashak Bin Ismail as our supervisors, Sir Mohd Ramlan Bin Mohd Arshad as our lecturer for subject Research Methodology and Data Analysis (ADS511) and Dr. Nurul Hidayana Binti Mohd Noor lecturer for subject Applied Research Project (ADS555) for giving guidance and instruction to us throughout in class in order to complete the tasks. They also give guidelines and always remind us how to search the information and will fix the mistakes that we make in order to complete our proposal perfectly.

Besides, we would like to thank all my friends who helped us a lot who are willing to share their information to give us more understanding. Without them, we will not be able to complete this proposal perfectly.

Lastly, we also would like to express our special thanks to our parents who helped us a lot in finalizing this report within the limited time frame and giving me support. They have been helping by encouraging us to keep with this proposal from the start until the end. Once again, thank you very much.

ABSTRACT

Teaching and Learning of Science and Mathematics in English (PPSMI) has been implemented in the education system since 2003. This study was focusing on the opinion of university students towards the implementation of Teaching and Learning of Science and Mathematics in English (PPSMI). This study also aimed at the perspective of the university student on the implementation of PPSMI and impact on the implementation of the PPSMI. The study framework has two independent variables which are implementation of PPSMI and impact of PPSMI. The dependent variable of this study is the perspective of university students towards PPSMI. The population of this study is 200 respondents that were involved as a participant in UiTM Seremban 3.
