ACKNOWLEDGEMENT

First and foremost, we would like to send our utmost gratitude towards the creator, Allah S.W.T, for giving us the chances to live day by day healthily, and the opportunities to do research for our proposed topic. Next, we would like to give our appreciation and gratitude to Dr. Shahril Eashak Bin Ismail for guiding us throughout the process of executing this research proposal process and the research observation. Your guidance to us is always beneficial in doing our research, as well as giving us ideas on making this proposal a better version.

Not forgetting our friends and families who have always been our backbone and main motivations in finishing the tasks that were given to us. Every help and tips that you give are always insightful and add the information that is needed in our research, thank you. And the most important thing, to our self, Durar Najwa Binti Mohd Razi and Nurul Aathifah Binti Adnan, the two researchers that were responsible for executing this research study and observation. Thus, do a good job in managing to do research despite the worrisome problems, collecting data and also the lack of experience in writing a research proposal.

ABSTRACT

This study was conducted in line with the requirements of the code subject ADS 511 Research Method and Data Analysis. The proposed topic is regarding the Introduction of the Third Language in Elementary School Level. The study will be focusing on the factors involved which are the difficulty level of language learnt, student's comprehension and motivation on learning the third language, meanwhile the objectives proposed are to examine all the factors that influence the Introduction of the Third Language in Elementary School Level. By employing the methodology of Convenience Sampling and Quantitative Sampling Method (Likert Scale Measurement and Online Survey), a total of 200 respondents were given the questionnaires via online platform. The respondents are the students from UiTM Seremban 3 in degree level education.
