## **ACKNOWLEDGEMENT**

In the name of Allah S.W.T, Most Benevolent and Most Merciful,  
Assalamualaikum W.B.T,

First and foremost, I would like to say Alhamdulillah to Allah S.W.T for giving me the courage and strength to complete this research paper. Furthermore, I would like to acknowledge and extend my heartfelt gratitude to the following person who have made this research possible:

1. My supervisor, Ar. Hj. Azman Zainonabidin, who had supported and guided me through out the process of writing my research.
2. My course coordinator, Assoc. Prof. Dr. Ismail Samsuddin, who has provided me with significant information on current developments through out the research process.
3. Not to forget, my dearest parents, Noor Zilan and Suranah Rameli for their never ending support, vitality, assistance and cooperation in completing this research.
4. My dearest studiomates, Studio Archirocks, for never ending support and always sharing information for this research.

## **1.0 CHAPTER 1 : INTRODUCTION**

1.1	Statement of Problem	1
1.2	Aim and Objective of Research	2
1.3	Scope of Study	3

## **2.0 CHAPTER 2 : LITERATURE REVIEW**

2.1	Definition of Kindergarten	4
2.1.1	Classification of Kindergarten	4
2.2	Definition of Fire	5
2.2.1	Classification of Fire	5
2.2.2	Cause of Fire	6
2.2.3	Fire Prevention	7

## **ABSTRACT**

This research is an attempt to study the awareness of students and teachers of kindergartens on the fire requirement. The idea is to review the existing kindergarten based on the compliance of design with fire requirements and the awareness of students.

A total of 24 children between 4 to 6 years of age were randomly selected to be respondents for the study. The purpose of this method is to gather an initial opinion from the kindergarten kids. A structured interview was also conducted with the teachers. Lastly, observations were made on each of the kindergarten to check on the fire requirement compliance of building design according to Uniform Building By-Laws 1986 (UBBL) and the criteria listed out by the Private Education unit of Ministry of Education (MoE) Malaysia.

The findings of the study shows that fire safety education would significantly give benefit to kids that it can gradually improve kids' understanding on fire safety. Nevertheless, the adult plays a vital role in giving them the proper fire safety education that is needed.
