GANNAS

FIRE-RESCUE BOAT (TRANSPORT DESIGN)

Design Advisor : MR MOHD TAUFIK ZULKEFLI

GANNAS is a fire and rescue boat specially designed for the purpose of search & rescue during disasters or accidents that occur on or in the water whether in a river, lake, or sea. It has the latest features such as radar, GPS & advanced computer system to monitor the condition of the boat & during operation. The boat uses a high-powered engine that allows it to move faster & allows any operation to run smoothly.

Its various functions coupled with advanced features make this boat a practical boat and suitable for use in any operation or situation. Indeed, GANNAS is the long-awaited fire and rescue boat by those who need a water vehicle that meets their needs.
