Madam Yus Aznita Bt Ustadi

AUGUST 2022

ABSTRACT

The purpose of the study was to determine the views of UiTM Seremban 3 students on the contributing factors contribute towards the change of voting age policy in Malaysia. This research was carried out between March and August of 2022. In order to collect data for this study, the convenience sampling technique is used. The study's findings showed four significant conclusions. The majority of respondents agreed that education, social media, and political are the factors that affect students UiTM Seremban 3 towards the change of voting age policy in Malaysia. As a result, our study is uniquely positioned to provide both theoretical and empirical contributions to the multi-domain literature, which includes educational and political literature.

Keywords: Voting Age Policy, Education, Social Media, Politics, Factors

ACKNOWLEDGEMENT

First and foremost, praises and thanks to God, the Almighty, for His showers of blessings to complete this research proposal successfully. We would like to express deep and sincere gratitude to our supervisor, Madam Yus Aznita Bt Ustadhi for providing us invaluable guidance throughout this research proposal.

We are extremely grateful for what she has offered us. Her personality and good leadership skills made us feel more easier working with her. She gave us the clear tasks in order to make sure that we met the significant goals and objectives of our research proposal. It was a great privilege and honour to work under her guidance.

Apart from that, for all of our family, we are very thankful for the continuing support from each member to complete this research proposal. Lastly, we would like to express our gratitude to our friends that also support us throughout this semester.
