## ACKNOWLEDGEMENT

Completing this research was a challenging project for us. However, fortunately we had the help of many parties that made this project less difficult. First of all, we would like to thank our beloved supervisor, Madam Jennifah Binti Nordin for her guidance throughout completing this research proposal as she always give us motivations and knowledge to improve our studies. Of course without her, we cannot complete this research proposal successfully.

Besides that, thanks to the lectures who had taught us many things about completing this research proposal. Not to forget, we would like to appreciate the contributions of family members, friends and others for their moral and financial supports.

Lastly, we would like to thank all those who helped us directly or indirectly throughout the process of this project.
