ACKNOWLEDGEMENT

Please allow me to begin by expressing my gratitude to my parents for all they have done for me. If it weren't for you two, I wouldn't have the courage to go for my goals. Even more deserving of my undying gratitude are my mom and dad and my two sisters. Despite my busy schedule, which included things like covering my business, I am quite appreciative. I'd like to give thanks to myself for making the time to complete this research despite the fact that today was a very busy day for me. Also, I have a wonderful, supportive family who never fails to make me laugh or remind me of their unwavering belief in me and my abilities.

I would also like to take this opportunity to thank my thesis advisor, Mr. Abdullah bin Mohd Redza, who was a great encouragement to me over the entirety of this research. It is he who is responsible for contributing to the understanding of music ensembles as well as some of the technical abilities. This thesis cannot be completed without his assistance. I am thankful to have received his direction and assistance; I believe I gained my knowledge from the very finest. As a result, I would want to express my sincere gratitude to Mr. Abdullah Redza for all that he has done.

Lastly, I would want to express my gratitude for the supportive husband that I have, Aniq Nashriq, who has shown patience and encouragement during a variety of difficult times. Because of your concern, every day of my life is a joyous adventure. I am unable to detail all of the assistance that you have provided for me, but know that my prayers will always be with you. May Allah ease everything.

ABSTRACT

Music means to express feeling through voices, which its most important factors are the sound and rhythm. In the present study, researcher attempted to examine the discipline of student after joining the music ensemble. The present method is Qualitative Method under Online Survey on Google Forms. The sample group consists of 15 female and 11 male that have experience in joining the music ensemble. For data analysis, Google Forms were used. Google forms will give researcher the ability to store and organize. The results show that joining the music ensemble caused to increase the confidence and discipline among students. Music Ensemble influences on increasing self-confidence of adolescents. It is recommended that music ensemble should be included in educational programs so that students in addition increasing the confidence, discipline, and keep on alert in any situation can be benefit from other musical influences in their lives.
