ABSTRACT

Zakat is one of the pillars of Islam that must be implemented by all Muslims. Zakat means to purify our property by giving to eight groups of asnaf who meet the conditions of eligibility to receive zakat. Those who receive zakat also have eight groups consisting of fakir, miskin, amil, muallaf, al-riqab, al-gharimin, fisabilillah and ibnu sabil. Each state has its own management and distribution of zakat, but there are still people who still do not understand the true meaning of each group. There are those who think that single mothers or those with disabilities will get zakat but in the management of this zakat will also be seen hadd kifayah whether they are eligible to receive zakat or not. Therefore, in this research paper is conducted to find out how the distribution of zakat under the Malacca Islamic Religious Council manages and distributes zakat to the poor and needy asnaf in Malacca. Finally, the writing of this study will answer the objectives and questions by interviewing five respondents consisting of zakat officers and asnaf.

First of all, I would like to thank Allah SWT for still giving me the opportunity to continue my studies in the Diploma as well as complete the last assignment for this last semester successfully despite the challenges. Next, I also thank my supervisor Dr. Mohammad Syukri Jalil for helping us answer our questions and correcting any mistakes as well as pouring many thoughtful ideas in this project paper.

I would also like to thank my five respondents who are the Central Melaka Zakat Distribution Officer under the Malacca Islamic Religious Council, Tuan Haji Dino for providing a lot of new information that I do not know about the management and distribution of zakat to the asnaf and help if I need help with the asnaf group as well as four asnaf group people who live in my housing estate who receive zakat under Melaka Tengah.

Thanks also to my friends whether a group with me or not for helping each other so much even in cyberspace because of the current Covid-19 atmosphere.
