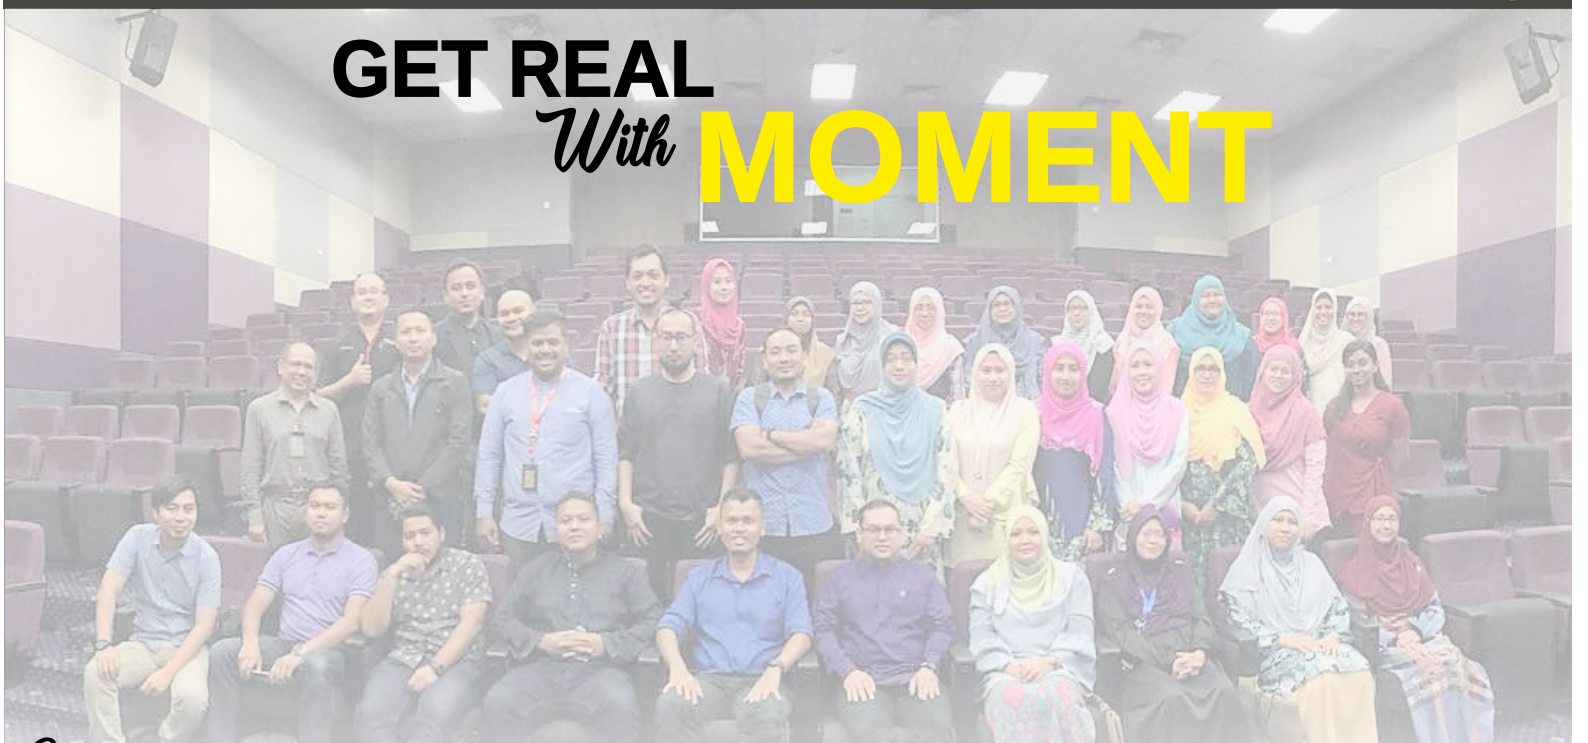
GET REAL With MOMENT



On February 9, 2018, Academy of Language Studies, UiTM Perak Branch, Tapah Campus organised a programme on mobile apps development which began with a workshop in the morning. Two facilitators for the workshop were invited from Kolej Universiti Islam Antarabangsa Selangor to guide and teach the participants in developing a mobile app.

A total of 53 participants from UiTM, Politeknik Ungku Omar, Kolej Komuniti Bagan Serai, Kolej Komuniti Taiping, Kolej Komuniti Pasir Salak, Institut Pendidikan Guru Ipoh and Institut Pendidikan Guru Darul Aman were guided on the steps to develop a mobile app by using a website. The facilitators guided the participants using a hands-on approach during the workshop where they were able to experiment using the website to create a mobile app based on their needs and creativity.

> "'The objective was to give exposure on the development and innovation of mobile apps.'"

In the afternoon session, a talk on mobile apps development was given by Puan Nur Hasni Nasrudin, a lecturer from the Faculty of Computer and Mathematical Sciences, UiTM Perak Branch, Tapah Campus. The talk discussed a few related topics such as the mobile app development life cycle and the principles of mobile app design.

While the workshop taught the participants how to create a mobile app, this talk provided useful tips on the dos and don'ts in developing a mobile app. This one-day programme's objective was to expose participants to the development and innovation of mobile apps. Knowledge on mobile apps development will also be advantageous in joining national and international innovation competitions in the future.
