Acknowledgement

In the name of Allah, the Most Gracious and the Most Merciful Alhamdulillah, all praises to Allah for the strengths and His Blessing when we nearly lost the path, ideas, and time to prepare and finish this research paper. In order to finish this paper, we need a lot of guidance and assistance from many people, such as lecturers, family, and students of UiTM Seremban, Negeri Sembilan. Special appreciation goes to our supervisor, Dr Mazlan bin Che Soh, for his supervision and constant support. His invaluable help of constructive comments and suggestions throughout the experimental and thesis works have contributed to the success of this research.

Not to be forgotten, my appreciation to our lecturer in charge research part 5, Sir Mohd Ramlan bin Mohd Arshad for his support and knowledge for every topic. We have tried as best as we can to gather information as well as going through different books, journals, articles, websites, and past research papers to ensure we provide in detail about our research topics without leaving any gap in between.

Thanks for the friendship and memories. Ultimately, our deepest gratitude goes to our beloved parents and our siblings for their endless love, prayers, and encouragement. To those who indirectly contributed to this research, your kindness means a lot to me. Thank you very much.

Abstract: The main aim of this research paper is to study the effect of cocurricular activities on social skills of university students in UiTM Seremban 3. The problem statement relies on the understanding on how this may affect the students' achievements in social skills-based in the long-term. To completely understand the differing views of the student's surrounding this issue, it was deemed crucial to investigate the viewpoints of the importance of co-curricular involvements in the university, the involvements of parents to let their child getting involved in activities outside the classroom, and the students itself. It was founded that most of the respondents or the students within UiTM Seremban 3 are lack in knowledge that these co-curricular activities are very crucial and beneficial for their academical achievements target and for their curricular improvements. The definition of the co-curricular activities itself shows on how vital it is in helping students being active together with academical and sports achievements. The research paper also provides and suggested many ways on how the universities and social clubs within to encourage the students getting engaged in cocurricular activities as part of their academical and course requirements.
