Acknowledgement

In the name of Allah, the Most Gracious and the Most Merciful. All praises to Allah and His blessing for the completion of this research proposal. We thank God for all the opportunities, trials and strength that have been showered on us to complete the proposal. We experienced so much during this process, not only from the academic aspect but also from the aspect of personality. Humblest gratitude to the holy Prophet Muhammad (Peace be upon him) whose way of life has been a continuous guidance for us.

First and foremost, we would like to sincerely thank our supervisor Dr. Mohamed Fajil Abdul Batau for his guidance, understanding, patience and most importantly, he has provided positive encouragement and a warm spirit to finish this proposal. It has been a great pleasure and honor to have him as our supervisor.

Our deepest gratitude goes to all of my family members. It would not be possible to write this proposal without the support from them. We would like to thank to our colleagues; Nurul Shazwani and Nurul Ashikin for their sincere help during our studies. We would sincerely like to thank all our beloved friends who were with us and support us through thick and thin. Last but not least, our lecturer for ADS 511, Dr. Azma Asnawi Shah. May God shower the above cited personalities with success and honor in their life.

Abstract

Students' academic performance is a key feature in education. This study was therefore conducted primarily to assess the factors affecting students' academic performance in UiTM Seremban 3. The study concludes that self-motivation, family stress, distraction from friends, and distraction by social media have serious influence on students' academic performance. Among the other elements examined in this research, the results show that both internal and external pressure on a student is a primary factor to the state of academic performance.

Abstrak

Prestasi akademik pelajar adalah ciri utama dalam pendidikan. Oleh itu, kajian ini dijalankan terutamanya untuk menilai faktor-faktor yang mempengaruhi prestasi akademik pelajar di UiTM Seremban 3. Kajian ini merumuskan bahawa motivasi diri, tekanan keluarga, gangguan daripada rakan-rakan, dan gangguan oleh media sosial mempunyai pengaruh yang serius terhadap prestasi akademik pelajar. Antara elemen lain yang diteliti dalam penyelidikan ini, keputusan menunjukkan tekanan dalaman dan luaran terhadap seseorang pelajar merupakan faktor utama kepada keadaan prestasi akademik.
